Elementary School **SUMMER LEARNING PROGRAM**

July 3 -16, 2018 8:30 am -12:30 pm

Elementary School Program
The intent of the Elementary Preview courses is to introduce students to the skills needed to be successful in school, and to develop or maintain an appreciation for learning within 40 hours of instructional time during the month of July

The 3 R's on the Move (Reading/Writing/Math & Movement) - Grade 1

This course has been designed to meet the specific needs of students entering or just finishing Grade 1. These courses will focus on developing foundation skills in Mathematics and Literacy, with some physical activity too! Proper running shoes will be needed.

Be Fit with Lit -Grades 2-3

Maintain and improve your child's reading and writing level through the summer months and stay active at the same time. This program is designed to improve their abilities and create a love of books and words. There will be a daily physical activity component so proper running shoes will be needed.

Be Fit with Lit -Grades 4-6

Maintain and improve your child's reading and writing level through the summer months and stay active at the same time. This program is designed to improve their abilities and create a love of books and words. There will be a daily physical activity component so proper running shoes will be needed.

Math on the Move Grades 2-3

Strengthen your child's basic Math and problem-solving skills, helping prepare them for the next grade. Engaging classes to make math fun! There will also be a daily physical activity component so proper running shoes will be needed.

Math on the Move Grades 4-6

Strengthen your child's basic Math and problem-solving skills, helping prepare them for the next grade. Engaging classes to make math fun! There will also be a daily physical activity component so proper running shoes will be needed.

Digital Literacy Grades 4-6

This course has been designed for students as they begin to utilize informational technologies at home and in the school system in a safe and responsible manner. Students will learn to use technology to: access, analyze, evaluate and communicate information.

Coding for Kids (Imagine, Program, Share, Repeat)

Grades 4, 5, and 6.

This course will develop and apply your child's coding and computational thinking skills while staying active at the same time. This course will teach your child the Scratch programming language and how to apply it in a variety of situations (animation, game design and real-world application). Collaboration with peers is built into the course as a fundamental part of the coding process. Your child will also be active in physical activities as a part of each school day.

English as a Second Language (ELL)

Grades 1-3, Grades 4-6

This course will provide English Language Learners (Beginners and Intermediate) with new and enriching experiences in order to provide vocabulary, written skills, and stimulate discussion and conversation on a broad number of topics.

Outdoor Adventures

Grades 2-3, 4-6

Please see the special brochure for additional information.

Writing Warriors

Grades 2-3

- Writing Warriors will provide low tech and high tech supports to those students with written output difficulties using program such as Print Like a Pro and Clicker for iPad. In addition, students in this program will explore the Social Inclusion Kits which our district received from Special Education Technology (SET-BC). There will also be a daily physical activity component so proper running shoes will be needed.
