The Board of Education recognizes its obligation to all members of the school community - staff, students, parents and guests, to provide a positive climate and a safe and healthy environment. It is expected that all members of the school community will conduct themselves in an ethical and lawful manner that demonstrates respect for self, others, property and environment.

Social media, defined as the use of technologies for information sharing, discussion and communication using interactive dialogue, is an extension of the classroom. What is inappropriate in the school community will be deemed inappropriate on-line. Violation of these principles will warrant intervention and/or disciplinary action.
