Wanting to register for the following school year?

- Parents and guardians of in-catchment students can anticipate placement in their catchment school for Grades K-12.
- Principals will connect with any *out of catchment* registrations, between May and September based on available space.

How do families request a school change if they do not want to attend their neighborhood (catchment) school?

The online registration requires you to indicate your catchment-area school and also provides the option to indicate if you would prefer to attend a different (out-of-catchment) school.

School Admission and Choice

If space and resources are limited, students will be admitted according to the following priority:

1. **Continuing In Catchment Students** - Students currently enrolled in the school.
2. **New In Catchment Area Students** - New students residing within the catchment area.
3. **Siblings of Continuing Students** - Non-catchment area students with siblings already currently attending and continuing to attend that school the following year.
4. **Non-Catchment Area Students** - Students residing within the District but outside the catchment area.
5. **Non-District Students** - Students from outside the District.

Out of Catchment School Notes:

- Applications for out-of-catchment and out-of-district will be valid for the school year in which you are applying.
- Parents/Guardians have the responsibility to provide transportation for students to and from the requested school if the transfer is approved.
- Parents and students should be aware that when a secondary student transfers to a different school, he or she may be ineligible to play inter-school sports. BC School Sports determines eligibility of students to participate in interschool athletics. For more information visit: bcschoolsports.ca
