ADMINISTRATIVE PROCEDURE 210 PARENTS' ADVISORY COUNCILS AND DISTRICT PARENTS' ADVISORY COUNCIL

Purpose:

This Administrative Procedure ("Procedure") is to support and recognize Parent Advisory Councils ("PACs") as the unified voice of parents, guardians and caregivers within each school community.

As part of this commitment to parental involvement, the Board of Education (the "Board") also recognizes the Chilliwack District Parent Advisory Council ("DPAC"), which is composed of representatives from individual school PACs. In addition to providing education, support and advice to parents across the Chilliwack School District (the "District"), DPAC may advise the Board on matters concerning education within the District. To facilitate this, DPAC collaborates with community and provincial organizations and holds regular meetings with the Superintendent of Schools (the "Superintendent") or a designated representative.

Guiding Principles:

1. The District supports the establishment of a PAC in each school and a DPAC as per Section 8 of the [School Act](#).
2. For the PAC to play a meaningful role, its organization, functions, and constitution and bylaws must be clearly defined.
3. Every principal in the District must be aware of the requirements of Section 8 of the [School Act](#) and District Procedures where consultation with PACs is required.
4. The District will provide support to the DPAC and PACs, which may include an annual financial grant as outlined in [Policy 221](#) District Parent's Advisory Council, access to facility rentals for meetings and events (rental requests submitted through the [Online Booking Portal](#)), access to the Microsoft 365 Office Suite, and school communication on behalf of each PAC.

ADMINISTRATIVE PROCEDURE 211 INSURANCE EXTENSION FOR PARENTS’ ADVISORY COUNCILS AND DISTRICT PARENTS’ ADVISORY COUNCIL

Availability of liability insurance coverage:

1. The Chilliwack School District's (the “District”) insurance coverage through the BC Schools Protection Program (“SPP”) enables third-party legal liability insurance coverage to be extended to include Parents’ Advisory Councils (“PAC”), the District Parents’ Advisory Council (“DPAC”) and their members
 - a) where the PAC has been recognized by [Policy 220](#) and
 - b) while they are engaged in authorized activities in connection with the school or District
2. An authorized activity requires that a school administrator or teacher-in-charge oversees the event to ensure its compliance with District policies and procedures, which includes onsite supervision.
3. Other risks, including but not limited to property loss or damage, embezzlement of PAC funds or claims brought by a member of a PAC or DPAC against any other member, are not covered under SPP.
4. PACs and DPAC have the option to purchase additional liability insurance for their organization from a private insurance carrier and are responsible to insure their own property and securities.

Coordination of insurance with the Parents’ Advisory Council and District Parents’ Advisory Council:

1. Since insurance coverage is based on the activity being connected with the District, PACs and DPAC must solidify insurance coverage for an activity by obtaining District authorization.
 - PACs can obtain authorization through their school principal (“Principal”)
 - DPAC can obtain authorization through the Secretary Treasurer’s office
 - Authorization(s) may be in verbal or written form.
2. PACs and DPAC are directed to communicate to the Principal the details of the organization and operation of their activity by completing [Form 211A – Activity Authorization for PACs and DPAC](#).
3. Principals are directed to communicate to their PAC:
 - a) liability risk management practices which the District utilizes with respect to the type of activity planned by the PAC and

ADMINISTRATIVE PROCEDURE 250 SMUDGING ON CHILLIWACK SCHOOL DISTRICT PROPERTY

Purpose

This Administrative Procedure outlines the steps for planning and approving smudging on Chilliwack School District property. It ensures that smudging is done in a culturally sensitive, safe, respectful, and inclusive way.

Background

Smudging is a sacred ceremony practiced by some Indigenous communities. It involves burning one or more sacred medicines gathered from the earth.

While teachings and protocols vary by Nation and family, four medicines are commonly used:

- xpá:y (cedar)
- sage
- sweetgrass
- tobacco

Smudging has been passed down through generations. Practices may differ, reflecting the diversity of Indigenous Nations and families.

Smudging often provides time to pause, reflect, and recenter. It is a spiritual practice of cleansing, preparation, and renewal. Many people use smudging to release negative thoughts or energy.

Smudging is a respectful and inclusive practice. Non-Indigenous people may participate when invited, provided they do so with respect for its cultural and spiritual meaning.

Participation is always voluntary. Anyone may choose to observe quietly or opt out at any time.

Procedure

1. Complete [Form 250A](#): Smudging Request.
2. Submit the request to the Site Administrator or School Principal.
3. The Site Administrator or School Principal will review the request with the Manager of Facilities. They will work collaboratively with the applicant to adjust the request if necessary.

Responsibility of the Privacy Officer

The Privacy Officer is responsible for ensuring compliance with this procedure.

Responsibilities of Staff

All staff must, without delay, report all actual, suspected or expected privacy breach incidents of which they become aware in accordance with this procedure. If there is any question about whether an incident constitutes a privacy breach or whether the incident has occurred, staff should consult with the Privacy Officer.

All staff must fully cooperate in any investigation or response to a privacy breach incident. Any staff who knowingly refuses or neglects to report a privacy breach in accordance with this procedure may be subject to discipline.

Privacy Breach Response

1. Report and Contain

Upon discovering or learning of a privacy breach, all staff shall:

- Immediately report the breach to the Privacy Officer.
- Take any immediately available actions to stop or contain the breach, such as by:
 - isolating or suspending the activity that led to the breach
 - taking steps to recover personal information, records or affected equipment.
- Preserve any information or evidence related to the breach in order to support the district's incident response.

The Privacy Officer shall then implement all available measures to stop or contain the breach. Containing the breach shall be the first priority of the response, and all staff are expected to provide their full cooperation with such initiatives.

2. Assessment and Containment

The Privacy Officer shall take steps to contain the privacy breach by:

The Privacy Officer, without delay, will assess whether the privacy breach could reasonably be expected to result in significant harm to individuals. This determination shall be made with consideration of the following categories of harm or potential harm:

- bodily harm
- humiliation
- damage to reputation or relationships
- loss of employment, business, or professional opportunities
- financial loss

If the Privacy Officer determines that the privacy breach could reasonably be expected to result in significant harm to individuals, then the Privacy Officer shall make arrangements to:

- report the privacy breach to the Office of the Information and Privacy Commissioner.
- provide notice of the privacy breach to affected individuals, unless the Privacy Officer determines that providing such notice could reasonably be expected to result in grave or immediate harm to an individual's safety, physical or mental health, or threaten another individual's safety or physical or mental health.

If the Privacy Officer determines that the privacy breach does not give rise to a reasonable expectation of significant harm, then the Privacy Officer may still proceed with notification to affected individual if it is determined that notification would be in the public interest or if a failure to notify would be inconsistent with the district's obligations or undermine public confidence in the district.

Notifications of a privacy breach shall be made as soon as reasonably possible. If any law enforcement agencies are involved in the privacy breach incident, then notification may also be undertaken in consultation with such agencies.

4. Prevention

The Privacy Officer shall complete an investigation into the causes of each privacy breach incident reported under this procedure and shall implement measures to prevent recurrences of similar incidents.

ADMINISTRATIVE PROCEDURE 258 ACCESS TO RECORDS

The *Freedom of Information and Protection of Privacy Act* (FIPPA) enables the public to request and obtain copies of records held by all provincial governmental public bodies, including the District, when those records are not routinely available.

Requests for Records

The District recognizes its obligations to respond to requests for access to records, including records containing personal information, openly and accurately by making every reasonable attempt to assist requestors with their requests.

A request for records is a written request that potentially could be released, in whole or in part, to anyone.

The Act requires the District to protect personal information of others, therefore the decision to grant complete or partial access to records or to refuse access will be made by the Privacy Officer guided by the relevant provisions of the Act.

If the Privacy Officer asks, the commissioner may authorize the public body to disregard requests under section 5 or 29 that (a) would unreasonably interfere with the operations of the public body because of the repetitious or systematic nature of the requests, or (b) are frivolous or vexatious. (Section 43 of the Act)

Records Available to the Public Without a Request are available at <https://www.sd33.bc.ca/freedom-information-and-protection-privacy>

Before Submitting a Request

- Review the Chilliwack School District's Privacy policies, administrative procedures and the *Freedom of Information and Protection of Privacy Act* (FIPPA) carefully.
- Ensure that you are seeking records, not information or answers to questions that can be readily obtained on the District website or from other sources aside from District.
- Do not ask questions or seek answers in an Access to Records request. You must request "records".

Submitting an Access to Records Request:

- Please use [Form 258A Request for Access to Records](#). All formal Access to Records requests must be in writing.
- Describe the specific records that you are requesting clearly and concisely in as much detail as possible and limit your request to only the records you need to simplify the search and minimize potential fees.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- Do not ask questions or seek answers in an Access to Records request. You must request “records”.
- Try to name the exact records you seek.
- Use specific dates and/or locations if applicable.
- Do not submit a request that is duplicate of a previous request as the previous request would have already been fulfilled and a response sent to you.
- Broad, complex requests, or requests for “all records” take longer to process and increase the likelihood of longer timelines of delivery and larger fees being charged to you.
- All formal requests must be submitted by in-person drop-off, mail, or email to:

ADMINISTRATIVE PROCEDURE 270 FLAG PROTOCOL

The purpose of this Administrative Procedure is to ensure that the National flag of Canada, the Provincial flag of British Columbia, and Sovereign Nations flags are displayed, raised, lowered, stored, replaced, and disposed of in accordance with federal and provincial protocols and the requirements of the *School Act*.

The District will:

- follow the [Federal guidelines](#) for displaying the National flag of Canada as published by the Canadian Heritage Ministry of the Government of Canada.
- adopt the [Provincial Guidelines](#) of the Protocol and Events Branch of the Government of British Columbia for the lowering (half-masting) of flags.
- follow the [Ministry of Education and Childcare, School Regulation 265/89](#).

PROCEDURES

Flying the Flag

“The manner in which flags may be displayed in Canada is not governed by any legislation but by established practice. The rules applied by the federal government are in no way mandatory for individuals or organizations; they may serve as guidelines for all persons who wish to display the Canadian Flag and other flags in Canada.” From Protocol and Events Branch (Provincial).

Dignity of Flags

1. The National Flag of Canada is to be displayed only in a manner befitting this important national symbol; it is not to be subjected to indignity or displayed in a position inferior to other flags or ensigns. The National Flag of Canada always takes precedence over all other flags.
2. The National Flag of Canada is always to be flown on its own mast - flag protocol dictates that it is improper to fly two or more flags on the same mast (e.g. one beneath the other).
3. When the National Flag of Canada is raised or lowered, or when it is carried past in a parade or review, all present are to face the flag, all hats are to be removed, and all are to remain silent. Those in uniform are to salute.
4. The Provincial flag of British Columbia will either be flown on its own flagpole (for sites and schools that have two exterior flagpoles) or prominently displayed inside the school or site using one of the following methods:
 - 4.1. Attached to a flat wall with fasteners penetrating the hem area only.
 - 4.2. Hung from a beam in the gymnasium, or
 - 4.3. With the National flag of Canada, on upright or crossed flagpoles against a wall.

5. Sovereign Nations, including Indigenous Nations, as recognized by the Canadian Constitution, also have flags. To display sovereign nation flags, follow the federal and provincial guidelines for use:
 - 5.1. Flag displays in gymnasiums: The National flag of Canada is the furthest to the left, followed by Provincial flag of British Columbia, followed by other Sovereign Nation flags. Center flags so that all are in a position of honour, above the speaker.
 - 5.2. Sovereign Nation flags should not be placed in display cabinets or in classrooms, unless advised by Rightsholders for awareness purposes.
6. Community Organizations and Banners (Pride flags, Every Child Matters etc.).
 - 6.1. Community-based and awareness flags may be displayed broadly throughout classrooms and buildings, as determined appropriate by school staff.

Half-Masting of Flags

1. In accordance with [Canadian flag etiquette](#), flags in the Chilliwack School District will be flown at half-mast on these occasions:
 - 1.1. As directed by the provincial [Office of Protocol](#).
 - 1.2. As directed by the Ministry of Education.
 - 1.3. As directed by the superintendent.
 - 1.4. On System-Wide Half-Masting of Flags days (see 3.6.1)
2. With the approval of the superintendent or designate, flags at individual sites may be flown at half-mast upon the death of a member of the school community or other tragic event.
 - 2.1. Flags may also be half-masted at the request of the Prime Minister and/or Premier of British Columbia for certain significant tragic events (at International, National or Regional levels).
 - 2.2. On occasions requiring that the National flag of Canada be flown at half-mast, all flags flown together should also be flown at half-mast.
 - 2.3. Flags will be half-masted only on flagpoles fitted with halyards and pulleys such that school personnel may raise and lower the flag.
3. System-wide Half-Masting of Flags:
 - 3.1. The National Flag of Canada shall be flown at half-mast at all Chilliwack School District schools and sites on the following days:
 - **January 27** – International Holocaust Remembrance Day
 - **January 29** – National Day of Remembrance of Quebec Mosque Attack and Action against Islamophobia.

- **April 28** – Workers' Mourning Day
 - **June 23** – National Day of Remembrance for Victims of Terrorism
 - **Last Sunday in September** – Police and Peace Officers' National Memorial Day
 - **September 30** – National Day for Truth and Reconciliation
 - **November 11** – Remembrance Day
 - **December 6** – National Day of Remembrance and Action on Violence Against Women
4. If the day to be observed falls when schools are not in session, flags should be lowered on the last school day preceding the date of observation and raised on the first day following the date of observation.
 5. The School District Office will fly “special occasion” flags (such as the Pride Flag or the Poppy Flag) for brief periods (for example, during June Pride Month) on its third flagpole. Flags for consideration are based on “special occasions” embedded in the District [Equity, Diversity and Inclusion \(EDI\) Calendar](#).

Method of Half-Masting

1. The flag is brought to the half-mast position by first raising it to the top of the mast then immediately lowering it slowly to the half-mast position.
2. The position of the flag when flying at half-mast will depend on the size of the flag and the length of the flagstaff. It must be lowered at least to a position recognizably "half-mast" to avoid the appearance of a flag, which has accidentally fallen away from the top of the mast owing to a loose flag rope. A satisfactory position for half-masting is to place the centre of the flag exactly halfway down the staff.

Disposal of Flags

When a flag becomes tattered and is no longer in a suitable condition for use, it should be respectfully disposed of, not discarded in the garbage. A work request is submitted to the Facilities Department to ensure proper disposal.

Obtaining Flags

A National flag of Canada and/or BC Provincial flag may be ordered by submitting a work request to the Facilities Department. The cost of a flag is paid from school funds.

ADMINISTRATIVE PROCEDURE 300 STUDENT SUBSTANCE USE

As described in Policy 314: Student Substance Use, the use of controlled and regulated substances, including drugs, alcohol, cannabis, tobacco products, vaping devices and e-cigarettes by students is an issue that involves parents/guardians/caregivers, educators, students and the community.

The Chilliwack School District takes responsibility for providing resources and programs that promote education and prevention, interventions that support students, as well as expectations and consequences that are clearly outlined and communicated to students, parents/guardians/caregivers and educators.

Procedures:

- All School District property will be designated no smoking and no vaping allowed, with the use of tobacco, vapour products, cannabis (in all forms), and controlled and regulated substances on school property and areas abutting school property prohibited at all times for all employees, students and visitors.
- School property is defined as all school buildings, grounds and properties, including School District offices and facilities and any properties owned or leased by, or operated under the authority of the Board.
- The use of tobacco, vapour products, cannabis, and controlled and regulated substances will not be permitted in private vehicles on school property, in School District owned vehicles and equipment, and in any vehicle used to transport students.
- The exception to this policy is for the ceremonial use of tobacco where the activity has been approved by the Board, and the ceremony is performed in relation to a traditional indigenous cultural activity or performed by a group for a purpose approved by government regulation.
- Principals, vice-principals and teachers shall strive to ensure that all students receive instruction that promotes substance use awareness, responsible decision-making, positive self-esteem and overall good health.
- Students and parents/guardians/caregivers shall be made aware of available counseling services and other support services outside of the school. Access to community assessment, counseling and treatment services may be facilitated by the school for students and families. In taking or facilitating such action, school personnel shall strive to ensure the confidentiality of those involved. Students should feel free to seek and receive counseling about substance use and related problems without fear of punishment or reprisal.
- Any illegal substances discovered to be in a student's possession or on school property shall be confiscated immediately by the school principal/vice-principal. At the time of confiscation, other responsible adults shall be made aware of the action that has been

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

taken by the principal/vice-principal. The substance shall be locked in a secure place within the school.

- School principals/vice-principals, given reasonable cause, are permitted to search student lockers without the consent of the student.
- The RCMP may be informed of suspected use or possession of illegal substances.
- In making decisions about disciplinary procedures, the principal shall be guided by the concept of "in loco parentis" and shall consider what is best for the individual student as well as the health, safety and well-being of other students and staff members.

ADMINISTRATIVE PROCEDURE 302 STUDENT BEHAVIOUR SUPPORT

Progressive Student Support:

In the event that student behaviour results in a significant or repetitive breach of Board Policy and Regulations, school rules or the school code of conduct, the school principal or designate will intervene with progressive supports at the school. These supports will begin at the classroom level, with consultation with parents/guardians; progressing to referrals to the School Based Team. These supports usually begin with classroom supports but can lead to alternate assignment (IE. Mainstream Alternate Program, suspension, a referral to Student Services, and/or a referral to the District Behaviour Committee (DBC)).

Suspension shall mean an action taken by an administrator authorized by the School Act and Board Policy prohibiting a student from participating in the regular education program. Suspensions may be of two kinds: in-school suspensions or out-of-school suspensions. All suspensions and discipline must take into consideration individual circumstances.

The principal or designate in each school may suspend a student for a period not to exceed five (5) days when it is concluded that a student has failed to comply with Board Policy regarding student behaviour or with the school's rules or Code of Conduct.

Alternative methods of discipline other than out of school suspension should be used for students who are truant, tardy, or otherwise absent from school. During a suspension, it is the responsibility of the principal or designate to make available an educational program for the student for the duration of the suspension.

Student Suspension Procedures:

When a student is suspended the following procedures shall be followed:

1. The principal or designate shall report the circumstances of the suspension to the parent or guardian, in person or by telephone. Telephone or personal contact will be confirmed, followed by a letter delivered via email or to the parent's home address. A copy of all correspondence must be kept on file.
2. For the duration of the suspension the principal or designate shall ensure that an appropriate educational program is made available to the student.
3. The principal or designate will discuss the matter with the student's parent/guardian and where necessary, consult with appropriate district personnel, School Based Team members or inter-agency care team personnel to create a success plan.
4. The suspension may be terminated or modified at the discretion of the principal or designate and/or the Superintendent or designate, after consultation with appropriate school district personnel and parent(s)/guardian(s).

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

Referral Process to District Support

District Resource Team (DRT); District Behaviour Committee (DBC); Worrisome Behaviour

- DRT – The DRT is a problem-solving table – and is the next step to support a student after the School Based Team has exhausted their supports. When, in the opinion of the school principal, the resources of the school have been exhausted, the principal or designate may refer the student. This referral may coincide with a suspension; however, a referral may be made without a suspension. The referral to DRT must be promptly communicated to the parent. In making the referral to DRT, the principal or designate, must complete a full referral of actions taken at the school level to resolve the difficulties. Before the referral is made, appropriate consultation with the family, School Based Team, Indigenous Education Department, and Student Services Team should take place. Support services will also be made available to the victims of harassment, intimidation, or aggression.
- DBC Overview – The DBC is a decision-making table to work through serious violations to the school code of conduct for Middle/Secondary school aged students. In the event that the school principal or designate believes that a student's violation of the school code of conduct is serious enough to warrant a suspension of for more than five (5) days, the principal must refer the student to the DBC. This committee, chaired by the Assistant Superintendent (s), and consisting of the District Principals of Student Services, Indigenous Education, and Alternative Education, shall consider each case on its own merits, meet with the parent(s)/guardian and student concerned and consider further action, which shall include, but not be limited to recommending to the Superintendent any of the following:
 - a) suspension
 - b) provision of additional counselling and other support services to the student and the student's family
 - c) referral to the appropriate agencies (ADTP, PCRS Traverse program, Maples, Etc.)
 - d) placement in an alternate school setting, alternate school site (different school) or Kwiyeqel Secondary School
 - e) provide an at home educational program
 - f) expulsion from the school if the student is older than age 16 – *BC School Act*
 - g) referral to Student Services
 - h) no further action
- DBC Process – A member of the DBC team will meet with the parent/guardian and student prior to the DBC meeting. The purpose of the pre meeting is to help prepare the family for the DBC meeting. Additionally, another member of the committee will have a pre meeting with the school team to prepare as well. Both the parents and the school

team will receive a one-page overview of the meeting process at the pre-meeting. After the formal DBC meeting, and upon receiving the recommendations of the DBC, a letter, written by the Superintendent or designate, detailing the outcomes of the District Behaviour Committee meeting will be forwarded to the parents and filed at the school and at the School District.

- Worrisome Behaviour – Elementary aged students follow a different process termed, Worrisome Behaviour Planning. This process includes creating a behaviour or safety response plan developed together (school staff & parents) with Student Support Services.

ADMINISTRATIVE PROCEDURE 305 STUDENT BEHAVIOUR – SEXUAL HARASSMENT AMONG STUDENTS

Sexual harassment can be a type of discrimination based on sex, sexual orientation, gender identity or expression. When a student is sexually harassed in school, it can undermine their sense of personal dignity and safety, disrupt their education, and interfere with their ability to reach their full potential in life.

Under the British Columbia *Human Rights Code*, sexual harassment is a form of sex discrimination. It is sexual harassment if someone repeatedly says or does things to you that are insulting and offensive. It can be words or actions that are sex or gender related.

Some examples of sexual harassment are:

- unwanted touching.
- making offensive jokes or remarks.
- making sexual requests or suggestions.
- staring at or making unwelcome comments about someone's body.
- showing sexual pictures or images.
- being verbally abusive to someone because of gender.

PROCEDURE FOR STUDENTS:

If a student believes they are being sexually harassed, the following procedure is encouraged:

1. Sometimes a person does not realize that a particular habit, action, reaction or attitude is unwelcome. Therefore, it is strongly recommended that the complainant communicate to the individual that their behaviour is unwelcome and ask them to stop (verbally and/or in writing). Before proceeding with a formal complaint, students who believe they are being harassed or who may not know or are unable to communicate with the harasser should approach a teacher, counsellor, administrator, parent or trusted adult to obtain advice, support and skills to halt the harassment. The resolution may include an apology and assurance that the offensive conduct will not be repeated or some other acceptable solution.
2. Keep a record of incidents including dates, times, locations, possible witnesses, what happened, and your response. You do not have to have a record of events to file a complaint, but a record can strengthen your case and help you remember details over time.
3. File a complaint. If, after asking the harasser to stop the behaviour, the harassment continues, report the incident to one of the following individuals:
 - a) principal or vice principal.
 - b) teacher or guidance counselor.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- c) Superintendent or Assistant Superintendent (604-792-1321).
- d) a parent, friend or relative who can help you talk to one of the parties listed above.
- e) **Erase** (BC Safe Schools Report Line) <https://erasereportit.gov.bc.ca/add/report-it>

You also have the right to contact the RCMP or file a complaint under the BC Human Rights Code.

Time Limits:

Complaints can normally be filed for sexual harassment that has taken place within the previous 12 months. This time limit does not apply where sexual assault or sexual abuse has occurred.

DIRECTIONS FOR ADMINISTRATORS:

1. Once a complaint is received, it will be kept strictly confidential. However, it must be recognized that a fair investigation will require some disclosure. An investigation will be undertaken immediately, and all necessary steps taken to resolve the problem. If the issue is resolved through informal means, a copy of the resolution will be kept by both parties. If sexual assault or abuse has been alleged, it must be reported by the person receiving the disclosure or complaint to the Ministry for Children and Families and/or the RCMP for their investigation.
2. The complainant and the alleged harasser will both be interviewed along with any individuals who may be able to provide relevant information. All information will be kept in confidence. Normally, the school principal or vice principal will conduct the investigation. Both the complainant and alleged harasser are entitled to be accompanied by a representative, normally their parent(s)/guardian(s)/caregiver(s) at all phases of the investigation.
3. If the investigation reveals evidence to support the complaint of sexual harassment, both the parents/guardians/caregivers of the victim and alleged harasser must be informed, in writing, of the allegation and of the findings. The harasser will be subject to appropriate consequences that may include:
 - training, counselling, suspension and/or transfer, and the incident will be documented.
 - No documentation or reference to the complainant where the complaint is filed in good faith, whether the complaint is upheld or not.
4. Should the school principal conclude that a complaint is not filed in good faith, appropriate discipline will be applied. This discipline could range from an apology to a transfer as noted in point #7 below.
5. If the investigation fails to find evidence to support the complaint, there will be NO documentation concerning the complaint.
6. Regardless of the outcome of a sexual harassment complaint made in good faith, the student lodging the complaint, as well as anyone providing information, will be protected

from any form of retaliation including harassment of the individual(s) who have made a complaint or provided evidence.

7. In the event that a transfer is required, it shall be the harasser who is transferred, except where the complainant requests to be the one transferred.
8. Both the complainant and the alleged harasser have access to the school or district counsellor.
9. A student or parent/guardian of the student has a right to appeal decisions made by District staff as per Policy 390: Resolving Concerns.

Responsibility of Employees:

It is the responsibility of the administrator, teacher or any employee within this district to take immediate and appropriate action to report or deal with incidents of sexual harassment whether brought to their attention or personally observed. Under no circumstances should a legitimate complaint be dismissed or downplayed.

School administration should follow-up with both complainant and harasser to ensure the conduct does not continue and that counselling is provided if needed or wanted.

ADMINISTRATIVE PROCEDURE 307 POLICE REQUESTS FOR STUDENT INTERVIEWS

The District seeks to cooperate with police, while not compromising the legal rights of the students in its care. In most circumstances, students on School District premises or at school sponsored events cannot be formally interviewed by police officers as part of a formal investigation process.

The District recognizes there may be emergent situations that might require different approaches when police would like to interview a student. It is for this reason that all police contact with students on School District premises or at school sponsored events shall occur with the knowledge and consent of the administrator and with prior notice (except in a crisis situation).

Procedure

Requests by police to interview students on district premises or at a school sponsored event are subject to the following:

1. Students are not to be interviewed, except in the following circumstances:

1.1. In cases where child abuse is suspected, the police and/or social worker may interview the student under the legislative regulation for the protection of children:

“Police officers and child welfare workers have complementary roles in responding to reports of suspected child abuse or neglect. Police have authority under the Criminal Code of Canada and the Child, Family and Community Service Act to respond:

- when a child or youth is in immediate danger; and
- when a criminal offence against a child or youth is suspected.

When an officer has reasonable grounds to believe that a child’s or youth’s safety or well-being is in immediate danger, the officer has authority to take charge of the child or youth and notify a child welfare worker as soon as possible.

Where a criminal offence against a child or youth is suspected, police may investigate, working in collaboration with child welfare workers.

(See BC Handbook for Action on Child Abuse and Neglect, page 12)

1.2. In an emergent situation where there is no question of compromising the student’s legal rights and where immediate information is necessary for quick action:

1.2.1. When police officials request an interview with a student on school or District premises in accordance with Section 1.2, a Principal or designate must ensure that the student’s parent(s)/guardian(s)/childcare authorities are contacted immediately.

- 1.2.2. If parent(s)/guardian(s)/childcare authorities cannot be reached or are unable to attend the interview, the Principal shall request the police officer to delay the interview until such time as the parent(s)/guardian(s)/childcare authorities can be contacted or be present.
 - 1.2.3. If this request is refused, then the Principal or designate shall act “in loco parentis”. The Principal or designate must sit in on the interview and shall summarize the meeting in writing and provide the written report to the parent(s)/guardian(s)/childcare authorities, a copy to the Superintendent and retain a copy at the school in a file for that purpose, with notes subject to the terms of the *Freedom of Information and Protection of Privacy Act*.
2. A student is not to be released to the custody of other legal authorities in the absence of clear legal authority to do so.
 - 2.1. Any such release shall be in accordance with the District’s duty of care for students and any formal regulations governing such release, including notification of parents/guardians/childcare authorities.
 - 2.2. In the case of students of Indigenous ancestry, processes delineated in Local Education Agreements shall be followed.

In situations where police wish to have contact with a student at school:

1. The Principal shall request that the police complete interviews, conduct searches and effect arrests at another location away from school, if possible.
2. The school shall make every attempt to notify the parent(s)/guardian(s)/childcare authorities and confirm whether they wish to attend. The administrator shall document the attempt to make contact.
3. The Principal shall determine from the police officer what the nature of the contact will be, and support the student as required.

In such instances, the principal shall also inform the respective Assistant Superintendent.
 7. The principal shall record, in writing, the reasons for conducting the search, the result of the search and any action taken as a result. The identity of any informant(s) shall be kept confidential.

The school Code of Conduct will include the following statement: “The District assumes no responsibility for the loss, destruction, or theft of any personal items brought to school, stored by the school or to any school related activity by a student (bikes, technology devices, musical instruments, etc).”

THE DISTRICT OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

Consequences for Unacceptable Conduct

Where appropriate, consequences for unacceptable conduct should be preventative and restorative, providing students with opportunities for growth and reflection. Student suspension and exclusion from school may be necessary when efforts fail to result in a student complying with expected conduct standards or when significant Code of Conduct violations occur.

Each instance of student misconduct must be dealt with individually, considering the student's circumstances.

Each case of student misconduct shall be dealt with as expeditiously as possible.

Students who contravene the District or School Code of Conduct will be addressed and may be subject to discipline reflective of the age, maturity, and developmental level of the student and the severity and frequency of the unacceptable conduct:

- a. Disciplinary consequences should be progressive.
- b. As students become older, behaviour expectations change, and consequences of unacceptable behaviour should reflect this.
- c. Discipline will be fair, consistent, meaningful, and supportive, providing opportunities for student restitution, responsibility, and self-discipline.

The District recognizes that, from time to time, it may be necessary to suspend students from educational programs. To address student behaviour, a variety of approaches and strategies will be used, and suspensions will be issued for serious and/or repeated student conduct violations. For all students, the school administrator will ensure that:

- a. All contributing factors have been considered.
- b. Appropriate interventions are applied before discipline is considered.
- c. The grounds for suspension are clear and appropriate.
- d. Parents/Guardians are notified of the student suspension and the suspension is documented in the Student Information System (in the conduct tab in MyEd) in alignment with Administrative Procedure 312: Student Records.
- e. Meaningful education programs or interventions are offered during any period of suspension.
- f. Planning is undertaken for successful re-entry of the student if suspension is imposed.
- g. Parents/guardians and students are informed that they are liable for all costs associated with property damage as per School Act Division 3, Section 10.

In situations where a diverse learner may be unable to comply with a code of conduct due to a disability of an intellectual, physical, sensory, emotional, or behavioural nature, special considerations may apply.

THE DISTRICT OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

There may also be circumstances where students are denied access to school property as per Administrative Procedure 480: Trespassing & Maintenance of Order.

School Code of Conduct

Each school shall establish a written School Code of Conduct to govern student behaviour and discipline, reflecting the District Code of Conduct. Annually (by October 31st), Principals will ensure these codes are:

- a. Reflective of the standards outlined in the Ministry's Safe, Caring, and Orderly Schools Guide, 2008.
- b. Developed collaboratively with school communities.
- c. Made available to the public and posted on school websites annually.
- d. Communicated to students, parents/guardians, and employees of the District at the beginning of each school year and upon any changes.
- e. Communicated to students who enroll in the school during the school year.
- f. Reviewed annually with staff, students, and parents/guardians.
- g. Actively incorporated in the classroom and school experience.

APPEALS REGARDING DISCIPLINARY ACTION:

As per Policy 390 – Resolving Concerns, the Board of Education believes that when a parent/guardian/caregiver has a concern about the action or decision of any employee, their concern should be first channeled through the employee and then the principal of the school. If resolution is not reached at the school level, a concern may be forwarded to the appropriate Assistant Superintendent before being referred to the Superintendent for consideration.

Pursuant to Section 11 of the BC School Act and Board Bylaw 4: Appeal Procedure, a student and/or the student's parent/guardian/caregiver may appeal disciplinary action taken by Board personnel that they believe significantly affects the education, health or safety of the student, once the above steps have been considered.

School District employees will work cooperatively with government ministries and agencies to support joint programming for students.

PROVISION OF ADVICE BY OUTSIDE CERTIFIED PROFESSIONALS:

Where parents/guardians/caregivers wish to have outside professionals, private consultants, or members of an outside agency influence school programs for a student, the following protocols apply:

1. The professional should contact the school principal (or designate) to arrange a meeting with the parent/guardian/caregiver and the School Based Team. The initial meeting should discuss how communication will be coordinated, various roles and responsibilities, and how decisions are made.
2. The outside professional should be made aware in advance that while advice is certainly appreciated, school based and district based personnel are responsible for decisions on the instructional, curricular or behavioural strategies delivered to the student.

OBSERVATIONS BY OUTSIDE CERTIFIED PROFESSIONALS IN THE SCHOOL SETTING:

Where certified outside professionals have requested the opportunities to observe a child in the classroom setting, the following protocols apply:

1. The certified professional must have the permission of the principal and teacher(s) involved and the student's parent/guardian/caregiver. Where a child protection issue involving neglect or abuse is involved, parent/guardian/caregiver permission may not be required.
2. The focus of the observation is to observe the student's reaction to the activities in the classroom or school.
3. Suggestions and advice provided by the outside certified professional shall be duly considered, and may be implemented, with the agreement of the teacher, parent/guardian/caregiver and School Based Team.
4. Normally, outside private professional do not provide direct service to students within the school.

OBSERVATIONS BY DISTRICT EMPLOYEES OF A STUDENT IN ANOTHER SETTING:

Where district employees have been requested to observe a student at home or in another setting, the prime purpose of the observation is for the district employee to become more sensitive to how the student reacts in various settings. In these observations the following protocols apply:

THE BOARD OF EDUCATION
OF SCHOOL DISTRICT NO. 33
(CHILLIWACK)
Administrative Procedure

Enrolment Procedure

ADMINISTRATIVE PROCEDURE 337 SCHOOL ADMISSION AND CHOICE

Purpose

This Procedure outlines the process for student admission and school choice in the Chilliwack School District (“the District”). It aims to ensure fair, efficient, and transparent procedures while supporting student and parent/guardian preferences, subject to space and resource availability.

This Procedure is intended to simplify the school admission and choice process while ensuring fair access to educational programs in the District.

Admission Process Overview

The District will provide an educational program for every school-age student who is ordinarily resident in British Columbia, as defined in the Ministry of Education and Child Care’s eligibility requirements.

Key Principles:

- **Access to Neighbourhood Schools:** Students will have priority access to attend the school designated for their catchment area
- **School Placement Flexibility:** Families can request admission to schools outside their catchment area based on educational needs or preferences, subject to availability
- **Certainty and Continuity:** The District supports stability in student placement, striving to enroll siblings in the same school wherever possible
- **Efficient Resource Allocation:** Admissions will be planned to optimize space and resource use across the District

Application and Enrollment

- October 1st - Registration opens for the following school year
- Families can submit school applications at any time, but early registration is always better
- Please register online at <https://www.sd33.bc.ca/registration>
- Placement is determined based on the student’s current Principal Residence. A [Principal Residence](#) is the usual place where an individual lives, makes their home, conducts their daily affairs, receives mail and resides for more than 50 percent of the calendar year

General Admission:

1. Catchment Area Students:

Students who live within a school’s catchment area are given priority for enrollment. The District requires proof of residency at the time of registration. Please refer to the E-Registration [Frequently Asked Questions](#) for more information about Proof of Residency.

2. Out of Catchment Students:

Families may apply to schools outside their catchment area. Students applying from

outside the catchment will be placed on a waitlist in the order their applications are received (Date and time).

Applications from out of catchment students will only be considered after all in-catchment students have been placed, and only if space is available. The timelines are as follows:

3. Non-School District Students:

Students outside the District may apply and will be considered for placement after catchment and non-catchment (in-district) area students.

4. Feeder School Transition:

Students will not be automatically pre-transitioned to their receiving school ([Families of Schools](#)). Placement is determined based on the student's current Principal Residence regardless of their sibling's current school (if applicable). A [Principal Residence](#) is the usual place where an individual lives, makes their home, conducts their daily affairs, receives mail and resides for more than 50 percent of the calendar year.

- If a student has moved out of their current school catchment or has been accepted into their current school as an out-of-catchment student, they may remain at that school of record as long as space is available or until pre-transitioned into a middle or secondary school.
- Students will be pre-transitioned to their physical catchment middle or secondary school based on current Primary Residence. If a student wishes to attend a middle or secondary school outside of their catchment area, they will be required to

complete an online registration form. Out of district students currently registered in our schools will be pre-transitioned based on available space.

- [One Campus](#) Students or students new to the program will need to reapply annually. Refer to [Administrative Procedure 338](#) – Specialty Academies and Programs.
- **Priority for Enrollment:** If space and resources are limited, students will be admitted according to the following priorities:
 1. **Continuing In Catchment Students** – Students currently enrolled in the school
 2. **New In Catchment Area Students** – New students residing within the catchment area
 3. **Siblings of Continuing Students** – Non-catchment area students with siblings currently attending and continuing to attend that school the following year
 4. **Non-Catchment Area Students** – Students residing within the District but outside the catchment area
 5. **Non-District Students** – Students from outside the District

Misrepresentation

Applicants should note that a false statement about a student's Principal Residence will result in:

- the District or School Principal repealing the student's placement
- the student transitions back to their catchment school
- Procedural consequences through BC School Sports may apply

Determination of Available Space and Facilities:

1. **Capacity Evaluation:**

The availability of space is determined based on:

 - Staffing levels assigned to the school
 - The physical space available for instructional programs
2. **Enrollment Decisions:**

Enrollment decisions are made by the school principal in consultation with District administration, considering both space and the school's ability to deliver an appropriate educational program.
3. **Tie-Breaking Criteria:**

If multiple applications fall within the same priority group, placement will be determined based on the date and time of each application.

Transportation Responsibilities:

Parents/Guardians/Caregivers of students attending schools outside their catchment area are responsible for providing transportation to and from school. The District does not typically provide transportation for non-catchment or non-district students. Please refer to the [Transportation Policies and Administrative Procedures](#) for more information.

Special Programs and Choice Schools:

1. **District Choice Programs:**

Programs such as French Immersion and Integrated Arts & Technology Schools are open to all students District-wide. Applications are subject to specific entrance criteria and availability.

2. **Specialized Programs:**

These programs may have additional application processes, including interviews or assessments. Parents/Guardians/Caregivers should refer to individual program guidelines for more information.

3. **Specialty Academies:**

Per [Administrative Procedure 338](#) Specialty Academies and Programs, the host school will ensure that 33 percent of specialty academy seats be made available to out-of-catchment registrations through [One-Campus](#). These seats will be held until the end of the day on the Friday before Spring Break. After that date, these seats will be released back to catchment students of the host school.

If a student withdraws from a District Choice Program, Specialized Program or Specialty Academy, the student will return to their catchment school.

Appeals Process:

As per [Policy 390](#) – Resolving Concerns, if a parent/guardian/caregiver has a concern about their student’s placement that can not be resolved at the school level, the concern may be brought to the appropriate Assistant Superintendent, and then, if necessary, to the Superintendent of Schools for consideration.

Pursuant to the Board of Education [Bylaw 4](#): Appeal Procedure and Section 11 of the BC School Act, a student and/or the student’s parent/guardian/caregiver may appeal decisions taken by District personnel that they believe significantly affects the education, health or safety of the student, once the above steps have been considered.

Administrative Procedure

ADMINISTRATIVE PROCEDURE 338 SPECIALTY ACADEMIES AND PROGRAMS

Purpose

This Administrative Procedure (“Procedure”) establishes the requirements for creating, approving, and operating specialty academies within the Chilliwack School District (the “District”). It ensures that students enrolled in a specialty academy continue to meet graduation requirements while accessing enhanced learning opportunities beyond the standard educational program.

This Procedure is intended to maintain transparency, equitable access for students, and financial accountability in the delivery of specialty academy programs.

Guidelines

Students enrolled in a specialty academy must have available sufficient instruction to meet the general requirements for graduation. Students enrolled in specialty academies take a course or courses as a part of their graduation program that require additional learning outcomes beyond the learning outcomes required by the standard educational program.

Before a school can offer a specialty academy, the specialty academy and the schedule of fees for the specialty academy must be approved by the Parents' Advisory Council (“PAC”). The fees will relate to the direct cost incurred by the Board that are in addition to the costs of providing a standard educational program.

The host school will ensure that 33 percent of specialty academy seats will be made available to out-of-catchment registrations through [One-Campus](#). These seats will be held until the end of the day on the Friday before Spring Break. After that date, these seats will be released back to catchment students of the host school.

The District is committed to ensuring that all students have equitable access to the academy, regardless of their family's financial circumstances. The host school will develop a transparent process that helps families access the Academy.

Approval Procedure

1. The PAC of the school where a specialty academy is to be offered must advise the Board of Education (the “Board”) of the need for the specialty academy prior to March 1 of each school year.

The request to the Board for approval of a specialty academy must include:

- a) a description of the specialty academy and the benefits of the program.
- b) the number of students who can be expected to take advantage of the program based on certain evidence and student/public demand.

Administrative Procedure

- c) an explanation of how the proposed program can be expected to work in relation to current programs and any effect it may have upon other programs.
 - d) needed equipment and space requirements and indicate whether they are already available within the system.
 - e) the course(s) required to complete the academic requirements of the specialty academy.
 - f) the course hours of any specialty academy courses required in the specialty academy.
 - g) cost of program (on budget year basis) that includes:
 - all relevant costs (salaries, benefits, supplies, services, etc.).
 - first year costs with particulars of any non-reoccurring start-up costs.
 - second year costs to indicate impact on future budgets.
 - cost-per-pupil, with comparison to District norms and other special programs.
 - the approved schedule of fees.
 - indicate the source of revenue for the program i.e. Special Approvals, Federal or Provincial grants, fees, support from the District's Foundation.
 - confirmation of the approval of the specialty academy by the PAC.
2. The Board must approve any new specialty academies and the schedule of fees and make the schedule of fees available to the public prior to May 31 of each school year.
 3. Once the Board has granted approval for a specialty academy, subsequent approval is not required by the PAC or the Board unless the specialty academy has not been offered for three consecutive school years. The PAC will review the schedule of fees for a specialty academy annually.

ADMINISTRATIVE PROCEDURE 340 SCHOOL FEES

The following guidelines are to address circumstances where parents/guardians/caregivers and/or students may have difficulty paying school fees for required courses or programs. The guidelines, although specific to circumstances of inability to pay, are applicable to any circumstance where fee payment is a concern. It is the District's expectation that all such circumstances be handled in a sensitive manner.

GENERAL:

1. Consideration should be given to the fact that some parents/guardians/caregivers have several children in our schools and fees can have a significant impact on the family budget.
2. As much as reasonable, school fees at each level should be consistent.
3. Date due on invoices should be realistic, include payment options, and have a reasonable description of charges.
4. A clearly identified contact at the school should be named on the invoice should parents/guardians/caregivers or students have questions or concerns.
5. Fee lists, even if tentative, should be published in June to allow parents/guardians/caregivers ample time to budget for the new school year.
6. Student report cards are not to be withheld where fees are in arrears.

ALTERNATIVE PAYMENT:

1. School personnel dealing with parents experiencing financial difficulty should be prepared to, where appropriate:
 - a) Waive fees to ensure no student is denied access to required program or activity.
 - b) Make parents/guardians/caregivers aware that if fee payment is a problem they may approach the school and be assured that confidences will be respected.
 - c) Ensure that staff, who need to know of the alternative payment provisions, are so informed.

ADMINISTRATIVE PROCEDURE 342 SELECTION OF LEARNING RESOURCES

OBJECTIVES:

The Board affirms that it is the responsibility of its professional staff:

1. To provide materials that will support the learning outcomes and enrich the curriculum, taking into consideration the varied interests, abilities, learning styles and maturity levels of the students served.
2. To provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values and societal standards.
3. To provide a range of materials on issues so that young citizens may have an opportunity to develop and practice critical analysis in order to make informed judgments in their daily lives.
4. To place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection.

RESPONSIBILITY:

While selection of learning resources may involve many people (administrators, teachers, students, parents, community persons, resource staff), the responsibility for the selection of school-based learning resources rests with the principal and teaching staff.

CRITERIA:

1. The following criteria will be used as they apply:
 - a) Learning resources shall support and be consistent with the policy directives of the Ministry of Education and Child Care and with the provincially prescribed curriculum.
 - b) Where possible, educators will provide choice in reading materials to promote student interest and personalization as mandated by the BC redesigned curriculum. Social considerations are some of the most challenging criteria with which to evaluate a learning resource. Ideally, BC students should see themselves and their life experiences, as well as their community and society at large, reflected and validated in the learning materials in their classroom (Source: Focused Education Resources).
 - c) Learning resources should be fair, objective, and free from inappropriate images, bias, propaganda, discrimination and stereotyping, except where a teaching/learning situation requires illustrative material to develop critical thinking about such issues.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- d) Learning resources shall be representative of the many religious, ethnic, and cultural groups and of their contributions to our national heritage and the world community.
 - e) Learning resources shall be designed to motivate students and staff to examine their own attitudes and behaviours and to comprehend their own duties, responsibilities, rights, and privileges as participating citizens in our society.
 - f) Learning resources shall be appropriate for the subject area and for the age, emotional development, ability level, learning styles, and social development of the students for whom the materials are selected.
2. Learning resources should not be used except to meet specific prescribed learning outcomes; for example, to recognize propaganda and its purpose in a given context or to balance an argument.
 3. The selection of learning resources on controversial issues will be directed toward maintaining a balanced collection representing various views. Learning resources shall clarify historical and contemporary forces by presenting and analyzing intergroup tension and conflict objectively, placing emphasis on recognizing and understanding social and economic problems.
 4. Emphasis will be placed on the selection of Canadian and local learning resources where appropriate. These resources include learning materials from a variety of media by or about a Canadian person, about a region or event, and/or published or produced in Canada.
 5. Learning resources should be current, interesting, engaging and meet high standards of quality in factual content and presentation.

PROCEDURES:

1. In selecting learning resources, professional personnel will evaluate available resources and curriculum needs and will consult reputable, professionally prepared sources. The actual resource will be examined first-hand whenever possible.
2. Recommendations for purchase may involve administrators, teachers, students, parents, district personnel and community members.
3. Gift materials shall be judged by the criteria outlined and shall be accepted or rejected by those criteria.
4. Selection is an on-going process that should include the removal of materials no longer appropriate according to the criteria for the selection of learning.

1. The school receiving a complaint regarding a learning resource by a parent/guardian/caregiver shall try to resolve the issue informally.
2. The principal, teacher-librarian or other appropriate staff member shall explain to the questioner the school's selection procedure and criteria, and the qualifications of those persons selecting the resource.
3. The principal, teacher-librarian or other appropriate staff member shall explain the particular place the questioned resource occupies in the educational program, its intended educational usefulness, and additional information regarding its use, or refer the party to someone who can identify and explain the use of the resource.
4. If the questioner wishes to file a formal challenge, a copy of the district Learning Resources Policy and a Request for Reconsideration of Learning Resources form shall be provided by the principal to the party concerned.

Request for Formal Reconsideration:

2. The Request for Reconsideration of Learning Resources forms shall be signed by the questioner and filed with the principal or designate.
3. The District Officer in charge of curriculum shall be informed of the formal complaint received.
4. The District Officer in charge of curriculum will meet the questioner and attempt to resolve the issue and may refer the challenge to a reconsideration committee for re-evaluation of the resource.
5. Requests for reconsideration of materials in district collections shall be referred to a reconsideration committee.

Reconsideration Committee Process:

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

1. Upon receipt of a request for formal reconsideration of a learning resource, the principal is responsible for forming a reconsideration committee and setting the date for the first meeting.
2. Membership of the committee should include persons not involved in the school where the dispute has arisen:
 - One (1) school-based administrator selected by the Chilliwack Principals and Vice-Principals Association (CPVPA)
 - One (1) member of the district staff chosen by the Superintendent or designate
 - One (1) teacher chosen by the Chilliwack Teachers' Association (CTA)
 - One (1) teacher-librarian chosen by the Chilliwack Teacher Librarians Association (CTLA)
 - One (1) parent selected by District Parent Advisory Council (DPAC)
 - One (1) student chosen by the student council of a secondary school, when the dispute exists in another secondary school.
3. The committee is responsible for naming the chair of the committee at the first meeting.
4. The reconsideration committee may choose to consult district support staff and/or community persons with related professional knowledge.
5. The reconsideration committee shall review the challenged resource and judge whether it conforms to the principles of selection outlined in the District's Learning Resources policy.

Resolution:

1. The reconsideration committee shall:
 - Examine the challenged resource.
 - Determine professional acceptance by reading critical reviews of the resource.
 - Weigh values and faults and form opinions based on the material as a whole rather than passages or sections taken out of context.
 - Discuss the challenged resource in the context of the educational program.
 - Discuss the challenged item with the individual questioner when appropriate.
 - Prepare a written report based on the criteria in the District Learning Resources Policy.
2. The school principal shall receive a copy of the report.

4. Once filed, reports will be available for examination by trustees, appropriate personnel, and parents/guardians/caregivers.
5. The written report shall be discussed by the school principal with the individual questioner if requested.
6. The decision-making process of the reconsideration committee shall be by consensus and is binding for the district.
7. Notwithstanding any procedure outlined in this policy, the questioner shall have the right to appeal any decision of the reconsideration committee to the Board of Education as the final review panel.

Guiding Principles:

1. Only learning resources not on the approved list of Focused Education Resources can be challenged.
2. Any parent/guardian/caregiver of the school community may raise objection to learning resources used in the school's educational program despite the fact that the individuals selecting such resources were duly qualified to make the selection, followed the procedures and observed the criteria for selecting learning resources.
3. A challenged learning resource should not be summarily removed from circulation.
4. Access to challenged material may be restricted during the reconsideration process by the principal in consultation with the teacher-librarian and/or teacher.
5. The principal should review the selection and objection rules with the teaching staff at least annually. The staff should be reminded that the right to object to learning resources is one granted by the policies enacted by the Board of Education.
6. A parent/guardian/caregiver has the right to determine reading, viewing, or listening matter for only his/her/their own children.
7. Although it is the learning resources which are challenged, the principles of freedom to read/listen/view must be defended as well.
8. The major criterion for the final decision is the appropriateness of the material for its educational use.

ADMINISTRATIVE PROCEDURE 365 ALTERNATE DELIVERY FOR PHYSICAL AND HEALTH EDUCATION K-10 CURRICULA

Physical and Health Education K-10 has the unique opportunity for the student, in consultation with their parent/guardian/caregiver, to “opt for alternative delivery” of materials related to sexual decision-making that is contained in the curricula.

Procedure:

1. Students and/or parents/guardians/caregivers who request an alternate delivery model for one or more of the Physical and Health Education curricula will initially meet with the classroom teacher and/or school principal to discuss all learning outcomes of the curricula. For completion, the student is expected to spend the equivalent time to that of the school program.
2. The teacher/administrator will develop an outline of the plan and have it approved by the parent/guardian/caregiver. The plan will include one or more of the following activities (Depending on the amount of curricula to be covered, several of these activities may be required in order to achieve all learning outcomes):
 - Keeping a reflective journal on the learning taking place.
 - Writing a research report that is based on the learning outcomes or write an essay that expresses their opinions about the issues they are learning.
 - Creating a report that in some way summarizes the unit of study.
 - Providing the completed work according to the specified timeline.
 - Others; as assigned by the teacher and/or school principal.
3. The school will provide an overview of the appropriate learning standards, along with guidelines for providing evidence of student understanding of topics covered outside the classroom setting.
4. The alternative delivery agreement and completion of the learning standards will be documented by the teacher and/or school principal.

ADMINISTRATIVE PROCEDURE 370 STUDENT FIELD EXPERIENCES

Descriptions

Curricular Related Field Experiences: These experiences are directly linked to the outcomes of the school's educational program and students may be assessed on outcomes related to knowledge or skills related to the field trip experiences. While fund raising is permitted, additional fees to students may not be charged. These trips are not optional although students may be exempted under special circumstances.

Examples: Museum; Science World

Co-Curricular and Extra-Curricular Field Experiences: These activities although not directly linked to the learning outcomes for the school's educational program have direct educational value. Fund raising or additional fees for students for these activities are permitted. Parents and students must be advised that participation is optional.

Examples: School Teams; Student Leadership Programs

Travel for Educational Growth: Various organizations and commercial companies sponsor and/or assist in student travel or exchange programs. These activities support student development from a more global perspective and may not be linked to a particular program of studies. Fund raising or additional fees to students for these activities are permitted. Parents and students must be advised that participation is optional.

Examples: "Open House Canada" or Board sanctioned student exchange programs; Spring Break European Travel

Equitable Alternatives When Full Accessibility Is Not Possible: The District is committed to ensuring that all field experiences are safe, inclusive, and accessible for every student. However, in rare situations, such as activities that involve cultural, place-based, or land-based learning, or when safety, health, or environmental conditions present unavoidable barriers, full participation from every student may not be possible, even after making all reasonable efforts.

When accessibility cannot be fully achieved:

- Schools must take all reasonable steps to identify and provide equitable alternative learning opportunities that honour the purpose and spirit of the original field experience.
- Alternatives should meaningfully reflect the intended learning outcomes, particularly for Indigenous, cultural, or place-based learning so that students maintain connection, belonging, and learning continuity.
- Decisions must reflect careful planning, consultation where appropriate, and the District's commitment to student dignity, safety, and equity.

These circumstances are expected to be exceptional. This procedure ensures that [Policy 373: Student Field Trips and Experiences](#) is maintained while providing school principals with clear guidance when field experiences cannot be fully accessible.

ADMINISTRATIVE PROCEDURE 405 POLICE INFORMATION CHECKS - VOLUNTEERS

Purpose

This Administrative Procedure explains how volunteers apply, are screened, approved, and managed in the Chilliwack School District (the “District”), including eligibility and approvals.

Procedure

1. Online Criminal Record Check Application

Each volunteer shall complete the online Police Information Check (PIC) Application using the District’s unique access code. The application link and access code are available on the [District website](#). This application is submitted electronically to the BC Criminal Records Review Program (CRRP).

2. Identity Verification Requirements

Potential volunteers must verify their identity. This can be done in two ways:

1. Online using the BC Services Card Login: Potential volunteers may verify their identity immediately during the online application by using the BC Services Card Login.
2. In person at the District Office: To verify their identity in person, potential volunteers must contact the District Office at 604-792-1321 to schedule an appointment. They must present two pieces of government-issued identification (ID), one of which must be a photo ID.

3. PIC Results

CRRP will provide a letter of clearance directly to the District’s designated volunteer email account. CRRP does not send the District denial letters.

4. Records Management

Upon receipt, the clearance letter will be saved to a secure file at the District Office. The volunteer’s name, year of birth, and clearance expiry date will be entered into a secure District database accessible to school administrators and clerical staff.

5. Determination of Eligibility

Eligibility or ineligibility to work or volunteer with children is determined entirely by the CRRP. The District does not make or influence suitability decisions. All information received will be kept in strict confidence.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK)

Administrative Procedure Manual

6. Staff Volunteering Eligibility

Active staff members may volunteer in any school or department within the District. Staff members who are currently on leave (e.g., medical leave, maternity leave) are required to complete the PIC application process prior to volunteering.

7. Principal Authority

Once eligibility has been confirmed through the CRRP:

- The School Principal or designate may ask for ID on site to verify the identity of a potential volunteer.
- All people offering to serve as volunteers in the District will be assessed by the principal or designate. This assessment will consider the volunteer's skills, talents, potential contributions to the school, and suitability for the school or proposed role.
- Eligibility to volunteer does not guarantee participation. The principal or designate has the authority to decline any volunteer if it is determined that the individual is not needed or a suitable fit for the school or proposed role.

8. Communication with Parents Regarding Volunteers

Principals will inform parents when their child is working one to one with a volunteer.

9. PIC Exceptions

In an emergent situation, a volunteer who has not yet completed a PIC may be used on a one-time basis only. This exception is considered only when the volunteer works with students and teachers in a group setting, and the principal or designate has confidence in the volunteer's character.

10. Validity and Use Across Schools

A PIC is required for each volunteer and is valid for up to 5 years.

- A valid PIC is recognized throughout the entire District and does not need to be repeated when a volunteer supports multiple schools.
- If the status of a PIC changes at any time, for any reason, the individual's PIC is no longer valid. The individual must not continue volunteering and may resume only once a new PIC has been completed and approved.
- A principal or designate may request a new PIC at any time, at their discretion.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK)

Administrative Procedure Manual

11. School-Based Volunteer Lists

Teachers requesting volunteers must provide the school administrative assistant with a list of names. The administrative assistant will consult the PIC database to verify that the volunteers have valid clearance.

If a volunteer does not have valid clearance, the teacher requesting the volunteer, the administrative assistant, or another designated staff member must follow up to ensure the individual completes a PIC before volunteering.

ADMINISTRATIVE PROCEDURE 410 SMOKE/TOBACCO AND E-CIGARETTE (VAPOUR) – FREE ENVIRONMENT

The District recognizes the dangers to health from smoking, the use of tobacco products, second-hand smoke and e-cigarette (vapour) products. Each student and employee should have the opportunity for full participation in instruction and employment in a smoke/tobacco/vapour-free environment.

The Tobacco and Vapour Products Control Act 2016 prohibits smoking, using tobacco, or holding lighted tobacco, in or on school property except for the purposes outlined in section 2.2(3) of the *Tobacco and Vapour Products Control Act 2016*. The Act also prohibits the use of an e-cigarette or holding an activated e-cigarette on school property.

1. All school district buildings, vehicles and properties will be smoke, tobacco and e-cigarette vapour free. Smoking and the use of other tobacco/vapour products is not permitted in private vehicles on school district property or at school/district sponsored events off school property. All district school property will have signage posted banning the smoking of tobacco and e-cigarettes.
2. Information regarding the hazards of smoking, the dangers of second-hand smoke, the use of tobacco products and e-cigarettes will be an integral part of district communication and education programs.
3. Enforcement of this administrative procedure with students will be within the context of the school code of conduct and will focus on educating students and families about negative health impacts of tobacco and vapour product use. Enforcement can involve the services of the regional health authority.
4. Violations of this administrative procedure by staff may result in disciplinary action.
5. Visitors who violate this administrative procedure will be told to refrain from the conduct or leave the premises.

ADMINISTRATIVE PROCEDURE 417 SOCIAL MEDIA

The District recognizes the importance of providing employees with a clear understanding of the impact of using social media and its appropriate use. In an 'online world' the lines between public and private, professional and personal can become blurred. Even when employees are social networking on their own time, they may be identified as working for, and sometimes representing, the School District in their online communications.

The District recognizes the use of social media and networking as one means of communicating in the online world. However, it is also recognized that the inadvertent misuse of social media by employees has the potential to put the reputation of the School District and its employees at risk. The following procedure has been established to ensure best practices and mitigate both the School District and employees' exposure to risk.

Definitions

- **Social media** – Social media is defined as any form of online publication or presence that allows interactive communication, including, but not limited to, social networks, blogs, internet websites, internet forums, and wikis. Examples of social media include, but are not limited to, Facebook, Twitter, YouTube, Instagram, and Snapchat.
- **Professional Social Media Use** – Professional social media use is defined as any work-related social media activity that is either support services based, or school based (e.g., a District principal establishing a Facebook page for his/her school or a District teacher establishing a blog for his/her class).
- **Personal Social Media Use** – Personal social media use is defined as any non-work-related social media activity (e.g., an employee establishing a Facebook page or a Twitter account for his/her own personal use).

Professional Social Media Use

Maintenance of Separate Professional and Personal E-mail Accounts

Employees who decide to engage in professional social media activities must maintain separate professional (District email) and personal email addresses (Gmail etc). As such, employees must not use their personal email address for professional social media activities. The professional social media presence will utilize a District email address and must be completely separate from any personal social media presence maintained by the employee.

Communication with District Students

Employees who work with students and communicate with students through professional social media sites will follow these guidelines:

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- Professional social media sites that are school based will be designed to address instructional, educational or extra-curricular program matters.
- On school-based professional social media sites that involve students, employees will use the sites for professional purposes only. Employees are not to review any personal social media accounts created by their students.
- Professional social media sites that are non-school based will have a relationship to the mission and function of the District organization creating the site.
- Employees will inform their supervisor before setting up a professional social media presence and acknowledge they have read and understood all district policies and procedures including, but not limited to, those regarding privacy, use of technology and social media.
- Professional district social media sites are to include language identifying the sites as professional social media district sites. For example, the professional sites can identify the District, school, department, or particular grade that is utilizing the site and be linked to the school website.

Guidance Regarding Professional Social Media Sites

- Employees will treat professional social media space and communication like a classroom and/or a professional workplace. The same standards expected in District professional settings are expected on professional social media sites.
- Employees will exercise caution, sound judgment, and common sense when using professional social media sites.
- Employees will use privacy settings to control access to their professional social media sites to ensure that professional social media communications only reach the intended audience. However, employees are to be aware that there are limitations to privacy settings. Private communication published on the internet can easily become public. Furthermore, social media sites can change their current default privacy settings and other functions. Employees are responsible for understanding the rules of the social media site being utilized prior to utilizing the site.
- Professional social media communication must be in compliance with existing District policies and procedures, and applicable laws, including, but not limited to, prohibitions on the disclosure of confidential information and prohibitions on the use of harassing, obscene, discriminatory, defamatory or threatening language.
- No personally identifiable student information may be posted by employees on professional social media sites, including student photographs, without the consent of the students. If students are under the age of consent, their parents/guardians/caregivers must consent.

Monitoring of Professional Social Media Sites

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- Employees using professional social media have no expectation of privacy with regards to their use of such media.
- District/department/site supervisors reserve the right to remove, disable, and provide feedback regarding professional social media sites that do not adhere to the law or do not align with District policies and procedures.
- To assist in monitoring, as a recommended practice to the extent possible, the default setting for comments on professional social media sites is to be turned off or moderated regularly. If the default setting for comments is turned on, the comments on the site must be monitored on a daily basis by the user.
- When establishing professional social media sites, staff will consider the intended audience for the site and consider the level of privacy assigned to the site, specifically, whether the site is to be a private network (for example, it is limited to a particular class or particular grade within a school) or a public network (for example, anyone within the school or a larger group within the District community can participate). It is a recommended practice for professional social media sites to be private networks unless there is a specific educational need for the site to be a public network.
- District/department/site supervisors will maintain documentation of all reported non-compliant communications as well as any violations that are otherwise brought to the supervisor's attention.
- The district/department/site supervisors shall maintain an up to date list of social media accounts created including administrative access, username and passwords.
- Employees shall receive district/department/site supervisor approval prior to setting up social media accounts and platforms.
- District/department/site supervisors shall follow the District guidelines on acceptable District approved online applications.

Media Inquiries

Any media inquiries received via professional social media sites are to be referred to the [Chilliwack School District](#).

Personal Social Media Use

Communication with District Students

In order to maintain a professional and appropriate relationship with students, employees are not to communicate with students who are currently enrolled in District schools on personal social media sites.

Guidance Regarding Personal Social Media Sites

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- Employees are to exercise caution and common sense when using personal social media sites.
- As a recommended practice, employees are encouraged to use appropriate privacy settings to control access to their personal social media sites. However, be aware that there are limitations to privacy settings. Private communication published on the internet can easily become public. Furthermore, social media sites can change their current default privacy settings and other functions. As a result, employees have a personal responsibility to understand the rules of the social media site being utilized.
- Employees will not “tag” photos of other employees without the prior permission of the individuals being tagged.
- The posting or disclosure of personally identifiable student information or confidential information via personal social media sites is prohibited.

Applicability of Board policies, District procedures and other laws

- This procedure provides direction intended to supplement, not supersede, existing Board policies and procedures. Users of professional social media sites are responsible for complying with all applicable federal, provincial, and local legislation.
- This procedure is not designed to serve as a code of conduct for social media use. However, all existing Board policies and procedures, and legislation that cover employee conduct, may be applicable in the social media environment.

Additional Inquiries

This document is meant to provide general guidance and not cover every potential social media situation. As social media is a rapidly changing technology, the District will regularly review and will amend this procedure as needed. Should any questions arise, please contact the [Chilliwack School District](#).

ADMINISTRATIVE PROCEDURE 420 REPORTING SUSPECTED CASES OF CHILD ABUSE AND NEGLECT

School District employees have a duty to ensure that reasonable care is exercised, and appropriate action taken, to protect students from harm or risk of harm. Accordingly, employees who have reason to believe that a child has been, or is likely to be, physically or emotionally harmed, or sexually abused or exploited are legally required to report the child protection concern immediately upon discovery. It is an offence not to report a child protection concern.

Definitions

The following definitions, which are based on definitions contained in the Child, Family and Community Services Act, 2002 (the "CFCS Act), and the B.C. Handbook for Action on Child Abuse and Neglect, apply to this Administrative Procedure.

- **Abuse** – includes sexual abuse, sexual exploitation, physical abuse, emotional abuse, and neglect. For more detailed explanations, refer to the B.C. Handbook, pg. 7-13.
- **Child** – any individual under the age of 19.
- **Duty to Report** – the legal obligation of individuals to report child protection concerns to a Child Protection Social Worker immediately upon discovery of the information.
- **Reason to believe** means that, based on observation or information received, the person believes that the child has been or is likely to be at risk. You do not need to be certain.
- **Neglect** – the failure on the part of those responsible for the care of the child to provide for the physical, emotional or medical needs of a child to an extent that the child's health, development or safety is endangered.
- **Parent** – the mother or father of a child, a person to whom custody of a child has been granted by a court of competent jurisdiction, or a person with whom a child resides and who stands in the place of the child's parent.
- **Physical Abuse** – any physical force or action that results in, or is likely to result in, a non-accidental injury to a child and exceeds that which could be considered reasonable discipline.
- **Sexual Abuse and Exploitation** – any sexual exploitation of a child. It may also include any behaviour of a sexual nature towards a child. A child is not considered legally able to consent to sexual touching or activity with an adult.

Duty To Report

1. The legal duty to report is the responsibility of each individual.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

2. Any person with **reason to believe** that a child needs protection, or is likely to need protection, has a duty to report directly to a Child Protection Social Worker at the Ministry of Children and Family Development.

If you have any doubts about whether a report should be made, contact the Child Protection Social Worker and seek advice.

Keep in mind that:

- *You do not need proof – it is the Child Protection Social Worker’s job to determine whether abuse or neglect has taken place. Your role is to report your concerns, including disclosures and/or indicators that you have witnessed.*
 - *It does not matter if you think someone else is reporting the situation – you still must make a report.*
 - *It does not matter if a Social Worker is already involved with the child – you still must make a report.*
3. Document the information on the confidential Child Abuse Report Form and follow the protocol as outline in the Reporting Suspected Cases of Child Abuse and Neglect Protocol.
 4. Inform the school administrator after the Child Protection Social Worker has been called.
 5. Informing another person (e.g. counsellor, colleague, principal) does not discharge your legal duty to report directly to a Child Protection Social Worker.
 6. If a child is in imminent danger, police should be called first. Call 911.

Confidentiality

1. All information regarding a report of child abuse made by an employee to the district or to the Ministry of Children and Family Development is confidential and such information is only to be provided to persons authorized to receive such information, as set out in this Administrative Procedure.
2. Completed Child Abuse Report forms are stored securely at the School District Office. Permissions to view these forms are held only by the individual completing the report, the Superintendent, the Assistant Superintendent for Student Services, and the District Principal for Student Services. Copies of the form or notes related to the report must not be placed in the child’s regular or cumulative school record, pursuant to the CFCS Act and this Administrative Procedure.
3. All information related to reporting must be retained in a manner that ensures confidentiality and security of such information.
4. Teachers who report other teachers suspected of child abuse do not contravene the BCTF Code of Ethics in making a report of suspected child abuse.

Reporting Suspected Cases of Child Abuse or Neglect by a Person Who Is Not an Employee of the District

1. Document the information on the Confidential Report of Suspected Child Abuse & Neglect form.
2. Immediately report the concern to a Child Protection Social Worker at the Ministry of Children and Family Development.
3. Inform the School Principal of your report.
4. Do not inform parent(s), suspected abuser or any other parties.

Reporting Suspected Cases of Child Abuse or Neglect by a Chilliwack School District Employee, Volunteer, or Contracted Service Provider

1. School officials have the primary responsibility for dealing with these allegations; reports to MCFD are not usually required unless there is reason to believe that children may require protection outside of the school setting or the parents are unable or unwilling to take any action required to protect the child.
2. Document the information on the Confidential Report of Suspected Child Abuse & Neglect form.
3. Immediately report the concern to the school principal, who will report to the Superintendent.
4. If the suspected abuser is a school administrator, immediately report to the Superintendent or one of the Assistant Directors of Human Resources.
5. The Superintendent, in consultation with Human Resources, will begin the investigation process.

5.1. School District Employees – Where there are allegations of child abuse by a school district employee, the Superintendent is responsible to investigate the allegations and/or report the matter to the police in accordance with the *Interagency Child Abuse/Neglect Reporting and Investigation Protocol*. The Board and Superintendent have the authority under the *School Act* (s.15) to suspend an employee whose presence threatens the welfare of students. The Board also has the authority under the *School Act* to suspend an employee who is charged with a criminal offence.

5.2. Volunteers – Where there are allegations of child abuse by a volunteer, school officials have the authority to prohibit the volunteer's attendance at school in accordance with *AP416 – Volunteers*, the *School Act* (s. 177.2) if applicable, and the *Interagency Child Abuse/Neglect Reporting and Investigation Protocol*.

5.3. Contracted Service Providers – Where there are allegations of child abuse by contracted service providers, school officials have the authority to prohibit the service

providers' attendance at school, in accordance with the School District's contractual rights, property rights, and its authority under the *School Act*.

5.4. Other Persons – Where there are allegations of child abuse by other persons, school officials have the authority under the *School Act* (s. 177) to prohibit the person's attendance on school premises and to seek assistance of the police, in accordance with the *Interagency Child Abuse/Neglect Reporting and Investigation Protocol*.

6. Parents of children alleged to have been abused in the school setting must be informed by school district official of the allegation and the outcome of the school district investigations, unless there are special circumstances, e.g. relating to a child protection or police investigation, or endangerment of the child.
7. If a parent is reporting, they must inform the Chilliwack RCMP.
8. Do not inform parent(s), suspected abuser or any other parties.

Reporting Suspected Cases of Child Abuse or Neglect by Another School Aged Child

1. School officials have the responsibility and authority under the *School Act* to investigate allegations that a student has abused another student within the school environment, in accordance with Board Policy.
2. School employees and officials must take appropriate action to safeguard a student who is a victim of abusive conduct by other students at school and to notify the parents of the students involved.
3. School officials may notify and/or consult the police or MCFD where appropriate, in accordance with the *Interagency Child Abuse/Neglect Reporting and Investigation Protocol*.
4. A report to a Child Protection Social Worker is required when there is reason to believe that the child's parent is unable or unwilling to take action required to protect the child or where there is reason to believe that other abuse (including abuse of the alleged abuser) has taken place outside the scope of the school district investigation and the parent is unwilling or unable to protect the child (or the parent is implicated in the abuse).

Suggestions for Supporting the Child During a Disclosure

1. Remain calm and proceed slowly. Set aside the time needed to listen carefully and be supportive. Thank them for trusting you.
2. Document only the facts as the child has told them to you.
3. Questions should be framed in an open-ended, non-leading manner. Leave more detailed questioning to MCFD and/or police.
4. Reassure the child that they have done nothing wrong and that sharing this information will lead to accessing help.

ADMINISTRATIVE PROCEDURE 425 ADMINISTERING MEDICATIONS TO STUDENTS

The District believes that the parent/guardian is the primary caregiver to their child and is responsible for administering or supervising (to administer or supervise) the self-administration of medication. The District recognizes that there may be situations where it is necessary that medication must be administered during school hours and when (where) a parent is not available. Therefore, where administration or supervision of administration of medication cannot be done by persons other than employees, the following procedure will be followed to ensure that students remain in optimal health.

Procedure:

Except in emergency situations, designated staff will administer (*or supervise the self-administration of*) medications to students only if the following conditions are met:

1. The medication is required while the child is attending school.
2. A parent has requested the school's assistance and has completed the Medical Alert Form concerning administration at the school.
3. Written authorization and instruction has been received from an attending physician and parent/guardian (refer to Forms 425A and 425C).
4. Where medication, which is administered on a regular basis, is required while the child is at school, parents and authorized community health professional or an authorized employee shall have access to the student to administer the required medication.
5. If a student meets the Provincial Nursing Support Services (NSS) criteria/guidelines and is admitted for NSS services, then the NSS coordinator will "delegate" the medication administration to the applicable school staff. Medication administration is typically delegated to those children who require medication via G-tube and generally not an oral medication. Some oral medications may be delegated (if the need for the medication is required frequently e.g., for prolonged seizure activity).
6. School personnel have received adequate instruction from the parent/guardian and (where the child meets criteria for delegated care), assistance from Nursing Support Services concerning the administration of the medication. More than one employee at a school shall be adequately instructed in the administration of the medication in order to provide an alternative person in cases of absence or unavailability.
7. The medications are provided to the school in their original prescription container.

THE BOARD OF EDUCATION
OF SCHOOL DISTRICT NO. 33
(CHILLIWACK)
Administrative Procedure

8. Other than exceptional temporary circumstances, nonprescription medicines such as acetaminophen are not the school's responsibility. Where there are exceptional circumstances, the school will request that parents complete Form 425C.

NOTE: Nursing Support Services will provide consultation to schools at the time a child is being discharged specifically from NSS services regarding the delegation of medication management. NSS will help develop a plan at this transition with the school following the school's procedure.

Additional Requirements

A log shall be kept in the school stating the name of the student, the date and time of usage of the medication, circumstances surrounding its administration, and any other pertinent information. Each log entry is to be initialed by the person administering or supervising the self-administration of the medication. Form 425B will be used for this purpose.

ADMINISTRATIVE PROCEDURE 426 INFORMATION ON THE MEDICAL ALERT FORM

The Fraser Valley Health Regional and the Chilliwack School District have collaboratively developed the Medical Alert Form for school use.

Who Should Complete This Form?

The Medical Alert Form is designed for students who have:

- a) a medical condition that requires medication at school (ie, ADHD (Ritalin) to anaphalaxis (EpiPen)
- b) a medical condition that requires intervention in the event of epilepsy, diabetes, anaphalaxis (may or may not require medication)

The Purpose Of The Form

The Medical Alert Form provides:

- a) pertinent information on students with the above medical conditions
- b) a quick list of parental preferences in a health emergency
- c) parental request for medication to be administered at school
- d) physician authorization for the administration of medication
- e) parental release for the administration of medication
- f) for a response plan (if required)
- g) information on staff training in the administration of medication
- h) school and public health authorization

Using The Medical Alert Form

The school principal or designated staff member will give the parent/guardian/caregiver a Medical Alert Form to complete if they have indicated that their child has a health need that will require medication to be taken at school or that may require an emergency intervention. The parent will be provided with instructions on the completion of the form by school staff and in writing (sample letter provided). When the form is returned to the school, the public health nurse should be contacted to review the form and meet with the school principal to develop a response plan.

All documentation must be finalized prior to the administration of any medication. In some cases this may mean that the child will not attend school until the plan is complete. The administrator will designate a contact person at the school who will be responsible for collecting the form in a timely manner and informing the public health nurse.

ADMINISTRATIVE PROCEDURE 427 ALLERGIC SHOCK (ANAPHYLAXIS) PROCEDURES

The District is responsible for providing a safe environment for the students in our schools. Whereas some students suffer from life-threatening allergic reactions, the District expects that school administrators, teachers and support staff be informed and aware of the threat of allergic shock. They should know measures to reasonably avoid the allergens for affected students and be able to respond to an allergic reaction emergency.

Definitions

- **Anaphylaxis** is a sudden and severe allergic reaction, which can be fatal, requiring immediate medical emergency measures be taken.
- **At-Risk Anaphylaxis** is a condition that is diagnosed and/or stipulated by a Physician and communicated in writing by the Physician to the principal of the school that the student attends.

Procedure

In order for school personnel to effectively respond to life-threatening allergic shock reactions the following procedures are recommended.

1. INFORMATION AND AWARENESS

1.1 Parents - it is expected that parents will identify children with anaphylaxis to the school principal and provide information regarding the following:

- identifying allergens that trigger reaction.
- description of a treatment protocol signed by a physician plus an adequate supply of auto-injectors (or other medications)
- regular updates on the child's condition.
- permission for the posting and sharing of the child's photographs and medical information normally contained in the medical alert form.
- to provide a medical alert bracelet to be worn by the student at all times.

1.2 School Staff - the principal or designate shall ensure that:

- all staff are alerted and the child identified to the staff.
- all staff are alerted to board policy and procedures on managing anaphylaxis.
- allergy alert forms are placed in key locations.
- parents are included in the decision to post information.
- appropriate staff are instructed in the use of the auto-injector in the classroom.
- ensure teachers-on-call are informed on any anaphylaxis students when in service.

1.3 Training of Staff - the principal with the assistance of public health nurses will provide:

- annually to staff, teachers-on-call and volunteers wherever an anaphylaxis child is enrolled in-service on anaphylaxis and how to respond to an emergency
- all teachers and staff including bus drivers, who are in a position of responsibility for children with anaphylaxis will receive personal training in the use of the auto-injector.
- in-service training including specific information from parents on their child and parent participation in the use of the auto-injector.
- information about the potential sources of specific allergens is widely circulated including visible and hidden food sources of allergens such as in prepared foods, the importance of reading labels, and the danger of cross-contamination through shared utensils and non-food sources.

1.4 Sharing Information with Other Students and Parents – the principal with the assistance of public health nurses will:

- identify students suffering life-threatening allergies to all students in the school and enlist their cooperation in a manner appropriate to the child's age and maturity and in consultation with the parents of the child.
- Consult with the anaphylaxis student prior to sharing the allergy with peers (at secondary school level).
- Instruct students on basic procedures concerning anaphylactic shock.

1.5 Sharing Information with Parents and Parent Organizations

- Principals should inform parents of the presence of a student with life threatening allergies in their child's classroom and/or school and the measures being taken to protect the student.
- Parents should be asked to cooperate and avoid including the allergen in school lunches and snacks.
- Parents may be informed of alternative foods to the allergen, food labeling, ingredient lists to be provided when food is being brought from home.
- Parents should be involved in establishing specific programs for their own children, in training staff in emergency procedures and in reviewing school policies to reduce the risk of exposure to allergens.

2. AVOIDANCE OF THE ALLERGEN

The following recommendations should be considered in the context of the anaphylactic child's age and maturity. As children mature they should be expected to take increasing personal responsibility for avoidance of their specific allergens.

The balance to be achieved in allergen avoidance is to find ways to minimize the risk of exposure without depriving the anaphylactic child of normal peer interactions or placing unreasonable restrictions on the activities of other children in the school. It is understood

that schools and classrooms will exercise discretion in adapting to the needs of individual children and/the allergens which trigger reactions.

2.1 Ideas for Providing Allergen-Free Areas

- If possible, avoid using the classrooms of an anaphylactic child as a lunch room.
- If the classroom must be used as a lunchroom, establish it as an allergen free area, using a cooperative approach with students and parents.
- Establish at least one common eating area or a section of a single common eating area as “allergen-free”.
- Develop strategies for monitoring allergen-free areas and for identifying high risk areas for anaphylactic students.
- If allergen-free eating areas cannot be established provide a safe eating area for the anaphylactic child.

2.2 Establishing Safe Lunchroom and Eating Area Procedures

The most minute quantities of allergens can trigger a deadly reaction. The school should exercise control over all food products not only those directly consumed by the anaphylactic student. This includes:

- Require anaphylactic students to eat only food prepared at home.
- Discourage the sharing of food, utensils and containers.
- Increase lunch-hour supervision in classrooms with an anaphylactic child.
- Encourage the anaphylactic child to take mealtime precautions like:
 - placing food on wax paper or a paper napkin rather than directly on the desk or table.
 - taking only one item at a time from the lunch bag to prevent other children from touching the food; and
 - packing up their lunch and leaving it with the lunch supervisor if it is necessary to leave the room during lunchtime.
- Establish a hand-washing routine before and after eating.
- If the school has a food service keep the allergen, including all products with the allergen as an ingredient, off the menu. Provide in-service for staff and volunteers with special emphasis on cross-contamination and labeling issues.
- If the school has a vending machine, ensure that products containing the allergen are not available.
- Ensure that tables and other eating surfaces are washed clean after eating, using a cleansing agent approved for school use.

2.3 Ideas Regarding Allergens Hidden in School Activities

Not all allergic reactions to food are a result of exposure at meal times.

- Teachers, particularly in the primary grades, should be aware of the possible allergens present in curricular materials like:
 - play-dough;
 - bean-bags, stuffed toys (peanut shells are sometimes used);

- counting aids (beans, peas);
 - toys, books and other items which may have become contaminated in the course of normal use
 - science projects
 - special seasonal activities, like Easter eggs and garden projects.
- Computer keyboards and musical instruments should be wiped before and after use.
 - Anaphylactic children should not be involved in garbage disposal, yard clean-ups or other activities which could bring them into contact with food wrappers, containers or debris.
 - Foods are often stored in lockers and desks. Allowing the anaphylactic child to keep the same locker and desk all year may help prevent accidental contamination.

2.4 Ideas for Holidays and Special Celebrations

- Establish a class fund for special events and have the classroom teacher or the parent of the anaphylactic child provide only safe food.
- If foods are to come into the classroom from home, remind parents of the anaphylactic child's allergens and insist on ingredient lists.
- Limit the anaphylactic child to food brought from his or her own home.
- Focus on activities rather than food to mark special occasions.

2.5 Field Trips Ideas

In addition to the usual school safety precautions applying to field trips, the following procedures should be in place to protect the anaphylactic child.

- Include a separate "serious medical conditions" section as a part of the school's registration/permission forms for all field trips in which the details of the anaphylactic student's allergens, symptoms and treatment can be recorded. A copy of this information should be available on site at any time during the field trip.
- Require all supervisors, staff and parents to be aware of the identity of the anaphylactic child, the allergens, symptoms and treatment.
- Ensure that a supervisor with training in the use of the auto-injector is assigned responsibility for the anaphylactic child.
- If practical, consider providing a cell phone for buses used on field trips.
- Require the parent of the anaphylactic child to provide several auto-injectors to be administered every 10-15 minutes en route to the nearest hospital if breathing problems persist or if symptoms reoccur.
- If the risk factors are too great to control, the anaphylactic child may be unable to participate in the field trip. Parents should be involved in this decision.

2.6 Ideas for Substitute Teachers, Parent Volunteers and Others with Occasional Contact

- Require the regular classroom teacher to keep information about the anaphylactic student's allergies and emergency procedures in a visible location.
- Ensure that procedures are in place for informing substitute teachers and volunteers about anaphylactic students.
- Involve substitute teachers and volunteers in regular in-service programs or provide separate in-service for them.

2.7 Anaphylaxis to Insect Venom

The school cannot take responsibility for possible exposure to bees, hornets, wasps and yellow-jackets, but certain precautions can be taken by the student and the school to reduce the risk of exposure.

- Avoid wearing loose, hanging clothes, floral patterns, blue and yellow clothing, and fragrances.
- Check for the presence of bees and wasps, especially nesting areas and arrange for their removal.
- If soft drinks are being consumed outdoors, pour them into a cup and dispose of cans in a covered container.
- Ensure that garbage is properly covered.
- Caution children not to throw sticks or stones at insect's nests.
- Allow students who are anaphylactic to insect stings to remain indoors for recess during bee/wasp season.
- Immediately remove a child with an allergy to insect venom from the room if a bee or wasp gets in.

In case of insect stings, never slap or brush the insect off and never pinch the stinger if the child is stung. Instead, pluck the stinger out with a fingernail or credit card.

3. EMERGENCY RESPONSE PROTOCOL

Even when precautions are taken, an anaphylactic student may come into contact with an allergen while at school. It is essential that the school develop a response protocols and that all staff are aware of how to implement it. A separate emergency plan should be developed for each anaphylactic child, in conjunction with the child's parents, physician, and **school nurse** kept in a readily accessible location. The plan should clearly identify individual roles.

Anaphylactic children usually know when a reaction is taking place. School personnel should be encouraged to listen to the student. If they complain of any symptoms, which could signal the onset of a reaction they should not hesitate to enact the emergency response. There is no danger in reacting too quickly but there is grave danger in reacting too slowly.

3.1 Symptoms of Anaphylaxis

Signs and symptoms of a severe allergic reaction can occur within minutes of exposure to an offending substance. Reactions usually occur within two hours of exposure, but in rarer cases can develop hours later. Specific warning signs, as well as the severity and intensity of symptoms, can vary from person to person and sometimes from attack to attack in the same person.

An anaphylactic reaction can involve any of the following symptoms, which may appear alone or in any combination, regardless of the triggering allergen:

- Skin: hives, swelling (eyes, lips, hands, feet), itching, warmth, redness, rash
- Respiratory (breathing): wheezing, shortness of breath, throat tightness, cough, hoarse voice, chest pain/tightness, nasal congestion or hay fever-like symptoms (runny itchy nose and watery eyes, sneezing), trouble swallowing
- Gastrointestinal (stomach): nausea, pain/cramps, vomiting, diarrhea
- Cardiovascular (heart): pale/blue colour, weak pulse, passing out, dizzy/lightheaded, shock
- Other: anxiety, feeling of “impending doom”, headache, uterine cramps in females
- **Critical/Serious: May lead to serious consequences if untreated**
 - **Feeling dizzy, lightheaded or faint**
 - **Swelling of the mouth, throat or tongue, which can cause breathing and swallowing difficulties**

3.2 Emergency Plans

Every emergency plan should include procedures to:

- Communicate the emergency rapidly to a staff person who is trained in the use of the auto-injector.
- Administer the auto-injector (NOTE: Although most anaphylactic children learn to administer their own medication by about age 8, individuals of any age may require help during a reaction because of the rapid progression of symptoms, or because of the stress of the situation. Adult supervision is required).
- Telephone 911 (Inform the emergency operator that a child is having an anaphylactic reaction).
- If no ambulance service is available transport the child to hospital at once.
- Telephone the hospital to inform them that a child having an anaphylactic reaction is en route.
- Notify the police and provide them with a description of the vehicle and license number if transportation is by car.
- Telephone the parents of the child.
- If breathing does not improve or if symptoms reoccur administer epinephrine every 10-15 minutes while waiting for the ambulance and enroute to the hospital.
- Assign a staff person to take extra auto-injectors, accompany (or follow, if necessary) the child to the hospital, and stay with him or her until a parent or guardian arrives.

3.3 Location of Auto-injectors

- Auto-injectors should be kept in a covered and secure area but unlocked for quick access. Although epinephrine is not a dangerous drug, the sharp needle of the self injector can cause injury especially if injected into the fingertip.
- As soon as they are old enough, students should carry their own auto-injectors. Many young children carry an injection kit in a fanny pack around their waist at all times.
- An up-to-date supply of auto-injectors, provided by the parents should be available in an easily accessible, unlocked area of the child's classroom and/or in a central area of the school (office or staff room).
- All staff should know the location of the auto-injectors. Classmates should be aware of the location of the auto-injector in the classroom.

3.4 Role-Playing

The school should occasionally simulate an anaphylactic emergency similar to a fire drill to ensure that all elements of the emergency plan are in place.

3.5 Review Process

School emergency procedures for each anaphylactic student should be reviewed annually with staff, the school nurse and parents. In the event of an emergency response, an immediate evaluation of the procedure should be undertaken.

- During the first week of each school year, the school administrator is to review with all staff the procedures surrounding caring for sick and/or injured students. Staff are to be informed of the location of information regarding students who may require specific first aid assistance.
- Students with specific needs must have informative sheets maintained and updated as necessary on yellow medical sheets, red serious medical sheets, and white medical sheets at secondaries (ex: medical alert forms, medication forms).
- In the case of emergency treatment being required, the student shall be transported by ambulance to a hospital. The District will not cover the ambulance cost.
- In the case of non-emergency treatment being required, the student will be treated by staff with first aid attendant certification.
- In the event of sickness or accident, the student's parent shall be notified at the discretion of a school administrator (ex: a scrape of the skin requiring a band-aid would not constitute a call home).
 - The exception to this rule where a call home must be made is any head wound.
- First aid assistance can be provided by all staff. This assistance is defined as medical attention that is usually administered immediately after the injury occurs and at the location where it occurred consisting of a one-time, short-term treatment and requires little technology and no training to administer.
- First aid responders are staff actively working alongside or supervising students who hold a valid safety oriented first aid certificate.
- The district requires the following to hold valid safety oriented first aid certificates:
 - Administrative Assistant A
 - Education Assistant – Alternate Education
 - Education Assistant – Special Education
 - Supervision Assistant
- The accepted certificate is Emergency First Aid Level C. For regular staff the district provides in-service and the cost of the training.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

 - a. have the site's first aid supply kit brought to them, or
 - b. escort the student to the first aid supply kit and hand over first aid care of the student to the Administrative Assistant A.
3. For administering medications to students refer to [Administrative Procedure 425](#).

2. When the school administrator or their designate has an incident requiring a call to the parent/guardian/caregiver, they will be requested to provide transportation to the home or treatment centre.
 - a. If the parent/guardian/caregiver cannot be contacted or provide transportation the student's first aid attendant will determine their first aid requirements for the remainder of the school day.
 - b. If the student cannot remain in class and must remain in the office or first aid room the school administrator will designate staff to supervise the student.

NOTE: The student is not to be allowed to walk home unless the student first aid provider determines that such action is in the student's best interest in consultation with the school administration, and if contacted at the discretion of the parent/guardian.

The District has a [Communicable Disease Prevention and Response Plan](#). In its Appendix A are information and action tables for common communicable diseases in children and schools. They are a resource for school administrators and disability managers.

Prevention strategies for managing communicable diseases will be provided to students, employees, and visitors as part of the regular instructional program.

7. District employees must follow hygienic practices to minimize the risk of transmission of communicable disease during contact with a person's blood or body fluid.
8. Volunteers with a communicable disease have the right to continue volunteering subject to public directives from the medical health officer.

ADMINISTRATIVE PROCEDURE 430 ASSISTANCE DOGS IN SCHOOLS

Assistance Dogs are trained to assist children and adults with their daily living activities and provide physical safety and emotional support. Use of an Assistance Dog by a student with special needs, in school or on District property, may be approved by the District when it has been determined by the District that it helps develop independence or when the student requires such use to have equitable access to the services, programs or activities offered by the school, and when the District's criteria have been met to the satisfaction of the Board of Education.

Restrictions and Off-Limits for Assistance Dogs

The School District imposes some restrictions of Assistance Dogs for safety reasons. Assistance Dogs may be excluded or have limited access to certain areas of school facilities or certain programs for safety reasons.

Areas or programs which may be considered off-limits for Assistance Dogs include, but are not limited to Laboratories, mechanical rooms, custodial closets, food preparation areas, areas where protective clothing is necessary, areas which have exposed sharp metal cutting or other sharp objects which may pose a threat to the Assistance Dog's safety, areas with high levels of dust and areas where there is moving machinery.

The determination to deny or limit the access of an Assistance Dog to specific programs or areas of that school facility will be on a case-by-case basis.

Staff Assistance Dogs

The District recognizes the benefit dogs can have on students. There may be District staff who wish to bring an Assistance Dog into a school. For safety reasons, Staff Assistance Dogs must be accredited assistance dogs. Staff who wish to bring an Assistance Dog to school shall follow the following procedure:

1. A staff member may provide a written request to the principal of the school and the Assistant Superintendent to bring a Staff Assistance Dog into the School. The written request shall include the information regarding:
 - a. Identifying the school where the staff member shall bring the Staff Assistance Dog.
 - b. Consultation with the school community regarding bringing a Staff Assistance Dog into the school.
 - c. How the Staff Assistance Dog will:
 - Support students.
 - Improve instruction to students.
 - Improve learning for students.
 - Provide emotional support to students.
2. A Staff Assistance Dog must be accredited by the Pacific Assistance Dogs Society ("Staff Assistance Dog").
3. A staff member typically means non-classroom based staff and includes administrative staff, school counsellors, and youth workers.
4. The principal of the school and the District Principal of Student Services must provide written authorization to the staff member before the staff member may bring a Staff Assistance Dog into the school. The authorization is only valid in the school listed in the request.

5. If a staff member moves schools within the District, they will be required to issue a separate request and seek a new authorization before bringing in a Staff Assistance Dog to the new school.
6. The school and/or district will not be responsible for expenses related to the training, feeding, grooming or care related to the staff owned Assistance Dog.

Conflicting Disabilities

Employees, students, and parents/guardians/caregivers of a student with medical issues that are impacted by dogs (such as respiratory issues) should contact the school principal if they have a concern about exposure to an Assistance Dog. They will be required to provide medical documentation that identifies the disability and the need for an accommodation. The principal will facilitate a process to resolve the conflict that considers the conflicting needs/accommodations of all persons involved.

Appeal Process

As per [Policy 390 – Resolving Concerns](#), the Board of Education believes that when a parent/guardian/caregiver has a concern about the action or decision of any employee, their concern should be first channeled through the employee and then the principal of the school. If resolution is not reached at the school level, a concern may be forwarded to the appropriate Assistant Superintendent before being referred to the Superintendent for consideration.

Pursuant to Section 11 of the *BC School Act* and Board [Bylaw 4: Appeal Procedure](#), a student and/or the student's parent/guardian/caregiver may appeal disciplinary action taken by Board personnel that they believe significantly affects the education, health or safety of the student, once the above steps have been considered.

ADMINISTRATIVE PROCEDURE 440 OPIOID POISONING RESPONSE

This Procedure outlines the response to a potential opioid poisoning sites within the Chilliwack School District (“the District”). It provides clear guidelines for staff who have been identified and trained to recognize and respond to signs of a student opioid poisoning at school sites and during school-sanctioned events.

Scope

This Procedure applies to:

- All Principals and Vice Principals.
- Middle and Secondary Occupational First Aid Attendant staff.
- Managers who are trained to recognize and respond to a suspected toxic drug poisoning.

Under the Good Samaritan Act, anyone may administer naloxone in an emergency situation outside of a hospital setting.

Definitions

- Opioid – A class of drug, such as morphine, heroin, codeine, oxycodone, methadone, and fentanyl.
- Opioid Poisoning – An acute life-threatening condition caused by using an opioid.
- Naloxone - An antidote to an opioid poisoning.
- Nasal Naloxone Spray – A naloxone-based nasal spray that can restore breathing during an opioid poisoning by being administered into one nostril. It has no effect on individuals who have not taken opioids.

Education and Training

Staff within the scope of the Procedure will be trained in [Narcan Nasal Spray Instructions for Use](#). This will provide them with education and training in opioid identification and Nasal Naloxone Spray administration.

There will be one Nasal Naloxone kit provided by the District for each school or site. Each school or site will be responsible for storing it in a secure site location and for replacing the Nasal Naloxone when it expires or as needed.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

Staff should understand that there may be health and safety risks in responding to a poisoning. It involves the use of personal protective equipment (included in the Kit), and potential contact with drugs or blood and body fluids.

Individuals may be angry and physically aggressive or violent upon revival with Naloxone. Staff must be prepared to stand back and de-escalate these situations.

Procedures

1. Identification that a person is having an Opioid Poisoning is the first and most critical step in saving a person's life. Some early signs that a person is experiencing an Opioid Poisoning include:
 - Severe sleepiness or unconsciousness
 - Trouble breathing or slow, shallow breathing or snoring
 - Cold, and clammy skin
 - Trouble walking or talking.
2. The educated and trained staff first responder with their Nasal Naloxone kit calls 911 and then may choose to give cardiopulmonary resuscitation (CPR) and/or Nasal Naloxone spray depending on the circumstances and their comfort level.
3. The instructions for responding to an opioid overdose, giving a dose of naloxone by nasal spray, and providing support afterwards are available [online at this webpage](#) or on page 3 of this procedure.
4. Documentation – Staff who respond to a poisoning will report the event to their supervisor and provide a written summary of the events using [Form 440A: Opioid Poisoning Response Report](#).
5. Reporting – The School Administrator will report the event to their Assistant Superintendent and complete a [BC Schools Protection Program](#) (SPP) report.

Mental Wellbeing Follow-up after an Opioid Poisoning

Responding to an Opioid Poisoning can be a stressful and difficult experience for first responders and bystander staff. Both are asked to debrief with their direct Supervisor as soon as practicable. Ongoing support for staff is available through the District Employee and Family Assistance Program (EFAP).

Instructions for Use

 **NARCAN[®] (naloxone HCl)**
NASAL SPRAY 4mg

Step 1: Identify Opioid Overdose & Call for Emergency Medical Help

Check for signs of an opioid overdose:

- Person DOES NOT wake up after you shout, shake their shoulders, or firmly rub the middle of their chest.
- Breathing is very slow, irregular or has stopped.
- Centre part of their eye is very small, like a pinpoint.

Call **911** or ask someone to call for you.

Lay the person on their back.

Step 2: Give NARCAN[®] Nasal Spray

Remove device from packaging. **Do not test the device.** There is only one dose per device.

Tilt the person's head back and provide support under their neck with your hand.

Hold the device with your thumb on the bottom of the plunger. Put your first and middle fingers on either side of the nozzle.

Gently insert the tip of the nozzle into one nostril. Your fingers should be right up against the nose. If giving to a child, make sure the nozzle seals the nostril.

Press the plunger firmly with your thumb to give the dose.

Remove the device from the nostril.

Step 3: Evaluate and support

Move the person on their side (recovery position). Watch them closely.

Give a second dose after 2 to 3 minutes if the person has not woken up or their breathing is not improved. **Alternate nostrils with each dose.**

Note: Each NARCAN[®] Nasal Spray device contains only one dose; use a new device for each additional dose.

You can give a dose every 2 to 3 minutes, if more are available and are needed.

Perform artificial respiration or cardiac massage until emergency medical help arrives, if you know how and if it is needed.

For a list of serious warnings, precautions and contraindications, refer to the Product Monograph.

ADMINISTRATIVE PROCEDURE 445 AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs)

Purpose

This Administrative Procedure (“Procedure”) provides guidance and information regarding the installation and use of an Automated External Defibrillator (an “AED”) within the Chilliwack School District (the “District”). AEDs increase the survival rates in situations where sudden cardiac arrest occurs.

Scope

This Procedure applies to:

- All Principals, Vice Principals and Managers.
- All designated Occupational First Aid attendants.
- Anyone at the site with Cardiopulmonary Resuscitation (“CPR”) training.

Under the [Good Samaritan Act](#), anyone can provide emergency assistance to an ill, injured, or unconscious person in an emergency situation outside of a hospital setting.

Procurement and Maintenance

The District will purchase and install:

- AEDs within cabinets at all schools and sites.
- replacement batteries at the end of their 5 year lifespan.
- replacement defibrillator pads at the end of their 5 year lifespan.

The school or site will be responsible for:

- periodic visual inspection of the AED to ensure it is not tampered with and has a green checkmark of readiness in the electronic display.
- maintaining all accessories stored with the AED such as nitrile gloves, face masks, and antiseptic wipes in a clean state of readiness.

Placement at School or Site

The AEDs are located in a marked cabinet at schools or sites. The location of the AED and cabinet within each school and site differs, but will always be in one of the following locations:

- At or near the office or lobby entrance.
- At the entrance to a gymnasium.
- At a prominent place in the community side of a school.

Education and Training

All first aid attendants are trained to use AEDs but will need additional training on the specific model available at their site. The ZOLL AED Plus will be the AED model that is used for the remainder of this Procedure.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

All District staff will have access to an online training module in the use of the ZOLL AED Plus. This training module is available on [Brightspace](#).

Principals, Vice Principals, Managers and designated Occupational First Aid Attendants will be required to complete this training annually.

Procedure for Use:

The following Procedure is for the ZOLL AED Plus but is applicable to all AEDs. The AED Plus graphical user interface is visible on the top of the unit when the cover is removed. The pictograms are reminders of the steps to follow when performing a rescue. These images reinforce the instructions provided through voice prompts.

1. Make sure the scene is safe before approaching the patient.
2. Gently shake the patient and ask loudly if they are okay. If no response, call for emergency services or 9-1-1.
3. Turn on the device and follow the voice prompts. Check for responsiveness and call for help. Expose the patient's bare chest and attach the defibrillation pads as shown in the pictogram on the pads.
4. The AED will analyze the heart rhythm; if a shock is needed, it will prompt the user to press the flashing shock button after they ensure no one is touching the patient.
5. After a shock or if no shock is advised, begin CPR, following the devices real-time feedback for compression rate and depth until emergency personnel arrive.

The District recognizes both that it has obligations with respect to staff and student safety, and that video surveillance impacts individual privacy. The District utilizes video surveillance for the purposes of ensuring the safety of staff and students, to protect personal property, and to protect District property against vandalism, theft and other destructive acts. The District endeavours to use video surveillance in a manner that is respectful of individual privacy.

Procedures

1. Surveillance Implementation:

Before installing and operating a new video surveillance system in school facilities or on school lands:

- 1.1. The Superintendent or their designate will produce or cause to be produced a report documenting the reasons why surveillance is being considered, citing (if applicable) any specific incidents of property loss, safety or security breaches justifying the implementation of surveillance, identifying any less intrusive alternatives that have been considered and why they would not be an adequate alternative to surveillance, and setting out the methods that will be used to minimize the privacy impact of the surveillance initiative.
- 1.2. If surveillance is to be used within a school facility or on school land, the District will provide notice of its plans to the applicable parent advisory council. In accordance with and as required under 74.01 of the *School Act*, the District shall obtain the approval of the parent advisory council before proceeding with implementation of the surveillance system.

ADMINISTRATIVE PROCEDURE 485 USE OF PHYSICAL RESTRAINT OR SECLUSION OF STUDENTS

The District is responsible for maintaining a safe, secure environment for students and staff. It is expected that school personnel implement preventative, pro-active and positive supports and interventions that are non-punitive and grounded in the foundational understanding that behaviour is communication. These supports and interventions make the use of seclusion and physical restraint unnecessary in most circumstances.

As per British Columbia Ministry of Education Provincial Guidelines on [Physical Restraint and Seclusion in School Settings](#), this procedure outlines the limited situations where staff members are authorized to physically restrain or seclude students as an emergency measure of last resort, when alternate methods of defusing a situation have failed and the student is in imminent danger of causing harm to self or others.

Definitions

- Physical Restraint – a method of restricting another person’s freedom of movement or mobility in order to secure and maintain the imminent safety of the person or the imminent safety of others. The term physical restraint does not apply in the following situations:
 - The provision of gentle physical guidance or prompting of a student when teaching a skill, redirecting attention or providing comfort.
 - A temporary, gentle touch on a student’s arm, shoulder or back for the purpose of guiding a student to a safe location.
- Seclusion – the involuntary confinement of a person, alone in a room, enclosure or space that the person is physically prevented from leaving. The term seclusion does not apply in the following situations:
 - When a student has personally requested to be in a different/secluded location/space.
 - When a student is outside of the regular classroom for a calm or quiet break if these breaks are behaviour strategies that are proactive and are part of the student’s daily routine.

Plans for Student and Staff Safety

In cases where an individual student could potentially cause harm to self or others, an Escalation Indicator Response Plan (EIRP) and Individual Safe Work Instruction (ISWI) should be collaboratively developed with the principal, teacher(s), support staff, parent(s)/guardian(s)/caregiver(s) and, when appropriate, District Staff, outside professionals and/or the student. Consider information from assessment reports if available.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

These plans should include:

- The student's triggers, patterns of escalation and appropriate adult responses.
- Direct instructions to staff for how to work safely with the student when they are escalated.

To support student learning:

- A Positive Behaviour Support Plan or Behaviour Intervention Plan is created to describe the competencies the student needs to develop in order to communicate their needs safely, and the strategies that will be used to teach these competencies. These strategies may be listed in a student's Competency Based Individualized Education Plan (CBIEP).

It is the principal's responsibility to ensure that any staff likely to be in contact with the student such as teachers, education assistants, bus drivers, clerical, custodians and all replacement staff read the EIRP and ISWI and understand the importance of adhering to this plan for their own and others' safety.

It is the principal's responsibility to ensure that staff who require training to support the student have access to training at the next available opportunity.

A review/revision of prevention/intervention strategies/plans must occur in cases where there is:

- Re-occurring incidents of escalation causing harm.
- Repeated use of physical restraint or seclusion for an individual student.
- Multiple use of physical restraint or seclusion occurring within the same classroom.
- Repeated use of physical restraint or seclusion by an individual staff member.

Guidelines For Physical Restraint

1. The District recommends a "hands off" approach as the best practice when dealing with students who are experiencing dysregulation. It is expected that school personnel implement preventative, pro-active and positive supports and interventions that are non-punitive and grounded in the foundational understanding that behaviour is communication. Physical restraint must be used only in exceptional circumstances where a student is in imminent danger of causing serious harm to self or others.
2. Physical restraint will only be employed until the imminent danger or serious harm to self or others has dissipated.
3. Any time physical restraint is necessary a [Seclusion and Restraint Data Reporting Form](#) must be filed out on the day that it occurs with the District Principal of Student Services. The parents/guardians/caregivers must also be informed about the use of restraint as soon as possible and prior to the student leaving school.
4. Physical restraint must be conducted in a safe manner by staff who are trained in the proper methods of physical restraint. This training will ensure:

- 4.2 Student is not in a prone position (facing down on their stomach).
- 4.3 Student is not in a supine position (on their back, face up).

5. Training sessions in positive behaviour support planning, trauma informed responses, non-violent crisis intervention, conflict de-escalation techniques and planning for student and staff safety are offered to school personnel on a regular basis.
6. The need for staff to be trained in the use of physical restraint for a student will be determined during the EIRP Plan development. This plan is developed in consultation with trained district staff, school administration, school staff and the parent(s)/guardian(s)/caregiver(s) and when appropriate outside professionals.

Guidelines for Seclusion

1. It is expected that school personnel implement preventative, pro-active and positive supports and interventions that are non-punitive and grounded in the foundational understanding that behaviour is communication. Seclusion must be used only in exceptional circumstances where a student is in imminent danger of causing serious harm to self or others.
2. The space used for seclusion must not jeopardize the student's health and safety – emotionally or physically. Seclusion should only be employed in exceptional circumstances where a student is in imminent danger of causing serious harm to self or others.
3. Seclusion will only be employed until the imminent danger of serious harm to self or others has dissipated.
4. Any time seclusion is necessary a [Seclusion and Restraint Data Form](#) must be filed with the District Principal of Student Services. Parents/Guardians/Caregivers must be informed about the use of seclusion as soon as possible and prior to the student leaving school.
5. A student must never be unsupervised and locked into a room.
6. Any room that is to be used for seclusion must have an observation window and the student must be under continuous visual observation. ADMINISTRATIVE PROCEDURE 560 COMPENSATORY TIME FOR EXCLUDED AND MANAGEMENT EMPLOYEES

Purpose

This Administrative Procedure outlines the conditions and process under which Chilliwack School District (“District”) Excluded and Management staff (“MGMT-Leaders”) may adjust their work schedules or accrue compensatory time for additional hours worked beyond their regular schedule. This ensures consistent application, transparency, and compliance with organizational practices while recognizing the need for flexibility in managing workload demands.

Guidelines

In general, MGMT-Leaders are not entitled to overtime under the [Employment Standards Act](#) (the “Act”). due to increased workload or specific projects, MGMT-Leaders may occasionally be required to put in additional hours outside of their regular workday. In such circumstances, they should work with their supervisor to adjust their daily schedule to either accommodate the additional workload or to exercise flexibility in start/end times to balance out the additional hours worked. As this provision is above and beyond the Act, MGMT-Leaders are not expected to track additional hours worked.

Examples of flexible scheduling for MGMT-Leaders could include:

- A manager works one hour overtime a few times in a week to meet a deadline. They can arrange with their supervisor to start late or leave early at a mutually agreeable time.
- A manager is required to attend a two-hour committee meeting immediately after their regularly scheduled workday. They can arrange with their supervisor to change their schedule to start later that day.
- A manager is required to attend a meeting an hour ahead of their regularly scheduled workday and stay an hour late. They can arrange with their supervisor to start late or leave early at a mutually agreeable time.
- A manager needs to take an emergency call during the evening and works for an hour. They can arrange with their supervisor to start late or leave early at a mutually agreeable time.

In specific circumstances (where the above recommended flexibility in schedule is not possible), MGMT-Leaders will be eligible to accrue compensatory time with pre-approval from their supervisor as follows:

- Time spent at evening or weekend meetings or Board of Education (“Board”) business outside of regular hours.
- Time spent at sessions of Committee and Board meetings outside of regular hours.
- Time spent at public sessions where the individual is in attendance under direction or with the understanding that they should attend.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- Time spent working after hours or on weekends under the direction or request of a supervisor and related to meetings, projects, specific work, or other extenuating circumstances.

Compensatory time will be tracked and approved as follows:

1. The employee will receive written approval from their supervisor for the additional work that would meet the criteria for compensatory time prior to engaging in the activity. If flexible scheduling can be accommodated, the manager should not request compensatory time.
2. Time accrued will be tracked hour-for-hour on a calendar year basis, January 1 to December 31 and submitted each December for approval.
3. Approved compensatory time will be banked and available to use the following calendar year.
4. The maximum Compensatory Time that can be accrued in one calendar year is 3 days or 21 hours. Additional time will be approved by the supervisor and Human Resources on a case-by-case basis.
5. Time will be banked on an hour-for-hour basis, with a maximum of 7 hours for one day.

Compensatory time accrued must be taken in the immediate calendar year after it is banked. Any remaining banked compensatory time from the prior the year will be paid out at December 31 of that year.

Procedure:

1. The Manager will receive pre-approval from their supervisor prior to engaging in additional work.
2. The Manager will track approved additional time worked on the District compensatory time form.
3. Each December, the Manager will submit the form to their supervisor for final review and approval.
4. Approved forms will be submitted to Human Resources. The Manager will be allotted the approved compensatory days in their bank to use in the immediate calendar year.
5. The Manager can request paid leave of absence using their banked compensatory days at a mutually agreeable time and based on operational requirements.
6. Days taken as compensatory days are to be booked following the usual leave of absence process via the online employee information system.
7. At the end of each calendar year, the Manager will have any remaining banked compensatory days paid out.

ADMINISTRATIVE PROCEDURE 572 INTERVIEWING STUDENTS IN EMPLOYEE MISCONDUCT INVESTIGATIONS – EXTERNAL INVESTIGATOR

Purpose

To ensure that any interview of a Chilliwack School District (“District”) student conducted as part of an employee-related investigation, when the investigator is not the student’s school principal, is culturally appropriate, child-centered, trauma-informed, and respectful of student and family rights.

Scope

This Administrative Procedure (“Procedure”) applies when District students are interviewed as witnesses in an investigation of alleged employee misconduct when the investigator is not their school principal. External investigators could be District staff or third-party consultants (including lawyers).

Guiding Principles

- **Child-Centred and Trauma-Informed:** Students’ well-being is paramount. Processes will minimize harm and ensure safety and dignity.
- **Cultural Safety:** The District is committed to ensuring this procedure reflects culturally appropriate practices, particularly in relation to Indigenous students, families, and communities. See [Indigenous Cultural Safety, Humility, and Competency Guide](#).
- **Consent and Transparency:** Parents/guardians (or mature students where applicable) must understand the process and provide informed consent.
- **Support:** Students are entitled to have a parent or support person present.
- **Clarity:** Students and parents/guardians will be given clear, plain-language information about the interview.

Procedure

If a student is identified as a witness in an employee misconduct investigation and will be requested to attend an interview with an external investigator, the following procedures must be adhered to by all District staff in order to ensure student safety and well-being:

Administrative Procedure Manual

1. Necessity Test

Before a student interview is arranged, Human Resources (“HR”) (in consultation with the Principal or investigator) must determine that interviewing the student is necessary to the investigation and that the information cannot reasonably be obtained by other means.

- The rationale for interviewing the student must be documented and retained in the investigation file.

2. Consent

District staff must obtain written consent from parents/guardians (or from a mature student) before a student participates in an investigation interview or is contacted by an external investigator, either HR or a third-party investigator.

- Consent must be documented and forwarded to HR to be retained in the investigation file.
- Where consent is declined, HR will consult with the Superintendent’s Office to determine next steps.

3. Pre-Interview Communication

When obtaining consent, District staff must advise parents/guardians (and students, as appropriate) of:

- The context and purpose of the interview.
- Confidentiality and privacy obligations, and their limits.
- The student’s right to have a parent or support person present.
- The student’s right to discuss the interview with their parent/guardian afterwards.
- How to ask questions or raise concerns, both before and after the interview, and who to contact.
- That in some cases, the interview may be conducted by a lawyer or external investigator.

4. Conduct of Interview

Interviews must be conducted in a manner that prioritizes the student’s comfort and safety. Specifically:

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK)

Administrative Procedure Manual

- Trauma-informed approaches must be used (e.g., neutral setting, developmentally appropriate language, avoiding leading questions).
- The investigator will record who is present, confirm consent, and ensure supports are in place.
- The investigator will ensure the student is aware that they can pause or stop the interview at any time.
- The investigator will explain why they are gathering information from the student and how the information will be used.

5. Documentation

All consent forms, communication records, and interview notes must be retained by HR in accordance with District record-keeping and privacy requirements.

- Records must be stored securely in the HR investigation file and must not be placed in the student's educational file.
- Access to investigation records is restricted to those with a demonstrated need to know.

6. Follow-Up and Supports

District staff should advise students and parents/guardians of available supports (e.g., counselling, Indigenous support workers, community resources).

Principals will ensure that any immediate needs related to student well-being are addressed following the interview. Principals will follow up with the parents/guardians within 48 hours to confirm the student's well-being, if necessary.

Special Considerations

- Allegations involving criminal conduct, child protection, or discrimination may trigger mandatory reporting obligations and require involvement of external authorities.
- In some cases, the student or parent/guardian may be contacted by the employee's regulatory body in the future regarding the matter for which they were interviewed.

Roles and Responsibilities

Human Resources (“HR”)

- Determine, in consultation with the Principal, whether interviewing a student is necessary and document the rationale.
- Ensure consent documentation, communication records, and interview notes are retained securely and in compliance with privacy legislation.
- Consult with the Superintendent’s Office when student consent is declined or other complexities arise.

Principal (or Vice Principal)

- Coordinate the consent process and ensure parents/guardians (or mature students) receive clear, plain-language information about the interview.
- Clearly communicate the student’s rights, including the option to have a parent or support person present.
- Arrange a neutral, private, and safe environment for the interview that minimizes disruption to the student’s learning.
- Ensure the student is supported before, during, and after the interview and is aware they can pause or stop the process at any time.

ADMINISTRATIVE PROCEDURE 601 ACCUMULATED OPERATING SURPLUS

Purpose

The purpose of this Administrative Procedure is to provide guidance as to how the Board of Education (the “Board”) will manage the Accumulated Operating Surplus. The Procedure is organized to describe the following requirements:

1. Public participation;
2. Eligible restrictions to support strategic priorities and other operational objectives;
3. Target balances; and
4. Approval process and public reporting.

Definitions

- **Balanced annual budget** – the estimated spending in the annual budget must not exceed estimated revenue plus accumulated operating surplus.
- **Accumulated operating surplus** – represents the extent to which revenue exceeds expenditures, minus inter-fund transfers, from current and prior fiscal years.
- **Inter-Fund Transfer** – a transfer between the district’s Operating Fund and Capital Fund.
- **Internally Restricted Operating Surplus** – an appropriation of the Accumulated Operating Surplus that has been approved by a Board motion for specified use in future years.
- **Local capital** – is comprised of previous years’ available operating surpluses, which are transferred to Local Capital with Board approval; revenues from sale of capital assets; and investment income earned on these funds.

Public Participation

Prior to approval of the Annual Budget, the Board will consult and engage with education partners and local First Nations and Métis Nation BC on proposed uses of the accumulated operating surplus. This engagement will be consistent with the budget consultation processes outlined in Policy and will support the Board requirement of a collaborative process that is transparent, inclusive and timely.

Eligible Restrictions of Accumulated Operating Surplus by Category

The Accumulated Operating Surplus may be subject to internal restrictions for use in future years. Restrictions can be made for items that are identified by the District, have defined timelines and meet defined operational needs, including services or purchases that are directly related to the Board’s strategic plan and priorities, specified operational needs of the school district, and enhanced educational outcomes for students. Internal restrictions will be approved by separate Board motion, and should be classified under the following categories:

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Policy Manual

1. restricted due to the nature of constraints on the funds
Such as:
 - Contractual obligations (e.g., professional development)
 - Unspent targeted grant funds; or
 - School generated funds.
2. restricted for anticipated unusual expenses identified by the Board
This includes one-time expenses such as:
 - Specified short-term, variable staffing needs;
 - Equipment loss and breakage of reserves;
 - implementation of specified new initiatives; or
 - impact of specified emerging events (e.g., COVID-19)
3. restricted for operations spanning multiple school years
Such as:
 - Revenues are not received in the same school year in which expenses are incurred;
 - Unspent school block funds;
 - Unspent holdback funding from the Ministry of Education and Child Care;
 - Designated funds to support future obligations, programs, or services.
4. restricted for transfer to Local Capital
To create a reserve fund for:
 - Significant investments in technology, furniture and equipment, and fleet, that align with the Board's strategic plan and priorities;
 - School district contributions to capital construction projects not funded by the Ministry of Education and Child Care;
 - Capital Assets funded by the school district (e.g., Education Services Center, Maintenance etc.)
5. restricted for future capital cost share
 - To support major capital projects that are identified in the Boards' five-year Capital Plan, and approved by the Ministry of Education and Child Care for concept plan or business case development, the Board may restrict operating surplus to satisfy capital project cost-share expectations at the time the project is brought forward for funding approval;
 - To satisfy Ministry requirements to contribute to major capital projects.

Unrestricted Operating Surplus (Contingency)

The District will maintain an unrestricted operating surplus to support effective planning that includes risk mitigation. From time to time, the district may require emergency funds, or contingency funds for unexpected increases in expenses and/ or decreases in anticipated revenues. In these situations, the district needs to have access to enough funds to continue to provide educational services and maintain regular operations without implementing one-time service cuts.

The target balance for the Unrestricted Accumulated Operating Surplus is established in the range of 2 to 4 percent of annual operating expenses as approved in the Annual Budget.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Policy Manual

Should the Unrestricted Accumulated Operating Surplus decline below the target balance, a replenishment strategy will be developed and approved by the Board. Restoration of the balance may be implemented over a three-year period or an alternate approved timeline.

Special Purpose Funds

Special purpose funds comprise targeted funding provided to the school district for a specific purpose. Pursuant to the School Act, each special purpose fund must be accounted for in accordance with the terms of that special purpose fund. The District may maintain a surplus within a Special Purpose Fund where it is beneficial to do so in achieving the intent of that fund.

Approval and Reporting

Prior to bringing the Annual Budget, the Amended Annual Budget, or the Audited Year End Financial Statement to the Board for approval, the Secretary-Treasurer will present a report to the Budget Committee, for the budget, or the Audit Committee, for the Financial Statements, that includes use of the Accumulated Operating Surplus and Local Capital.

The report will include the opening balance, planned uses, actual uses and closing balances by the categories of use identified above, as well as the expected timelines for use.

The committees will provide a recommendation on the reports prior to consideration by the Board.

Allocations not contained in the budget will require a Board motion in a public meeting, save for motions that are appropriately made in a closed Board meeting such as matters related to land, legal or personnel matters.

The Board will approve recommendations for use of Accumulated Operating Surplus or transfer to Local Capital by way of separate motions. The motions will include the purpose, timeline and amount to be restricted.

ADMINISTRATIVE PROCEDURE 605 PURCHASING

PURCHASING OBJECTIVES

The following objectives for School District procurement activity for goods, services and construction are based on the principles of fair and open public sector procurement: competition, value for money, transparency and accountability.

Schools and Departments should endeavor to obtain the goods and services they require at the best value for their money, while ensuring that all acquisitions are consistent with policy, applicable legislation, and terms and conditions of Federal and Provincial trade agreements. **All** purchases made by District personnel using funds held in District accounts are covered by the following procedures.

PURCHASING METHODS

Purchases of goods and/or services can be processed by using one of the following methods:

Purchase Order

The purchase order is a written commitment to a vendor contracting for the supply of supplies, services or equipment. It is authorized by the site supervisor and then created through the District's accounting program.

- Purchase orders over \$1,000 will be reviewed, authorized and released to the vendor(s) by the Finance Department.
- Purchase orders exceeding \$10,000 must be reviewed, authorized and released by the Assistant ST or designate.

Purchasing Card (PCard)

Purchase Cards are an efficient way to handle a variety of transactions and are to be used in line with the limits on the cardholder's individual cards.

- The PCard may only be used by the person named on the front of the card.
- The maximum amount per transaction is \$5,000.
- Purchases exceeding the set limits must be approved by the Assistant ST or designate.
- The Finance Department may make a recommendation to use a PCard instead of issuing a PO when that is determined to be the most appropriate approach.
- Cardholders should refer to the Program User Guide for specific regulations around the use of purchase cards.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

- Cardholders must submit a monthly PCard statement, including receipts for individual purchases, to their supervisor (or designate) for approval.

Reimbursement of Purchases made with Personal Funds

This option is designed for employees that do not have access to a district PCard. Any one purchase should not exceed \$1,000.

Petty Cash

These funds are to be used primarily to purchase low value miscellaneous consumable supplies of an emergent nature. The petty cash system should not be used to circumvent the established purchasing procedures.

Approved Vendor Accounts

Schools or departments can request to have vendor purchases put on account whereby the school district will be invoiced monthly by the vendor for purchases made throughout the month. Vendor accounts are approved and maintained at the discretion of Finance and the vendor. All purchases must be approved by the department manager or school administrator. Invoices must be approved and forwarded to Finance in a timely manner.

Contracts or Service Agreements

A Contract or Service Agreement is used to purchase goods or services to be supplied over a period of time at a fixed or negotiated price (i.e. equipment leases, garbage disposal/recycling, etc.) or for the ongoing maintenance of certain types of equipment (i.e. photocopiers, specialized equipment, etc.).

A Service Agreement may also be used when a contractor is needed to provide a service at a district site (i.e. cafeteria services, academy coaches or other individuals working directly with students under the supervision of a teacher).

- A [District Service Agreement](#) is used for high risk contracts (of any value) or for contracts over \$1,000 in value.
- Schools and support departments should not enter into any verbal and/or written contractual agreement(s) without consulting the Secretary Treasurer or the Assistant ST.
- Administrative Officers and Managers are not legal signing authorities for the School District and therefore, cannot legally bind the School District into any contract.

Tendering Process

Request for Proposals (RFP), Request for Tenders (RFT) and Request for Quotations (RFQ) are formal competitive bidding documents and processes used for larger dollar value purchases where it is considered to be in the District's interest to incur the additional time and cost involved to:

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK)

Administrative Procedure

- Access value added offers from qualified vendors.
- Support fair and open bidding competition.
- Utilize quantitative, qualitative and objective analysis for vendor selection and award.

When tendering services, the subsequent contract should be for a fixed term (e.g. 5 years) to ensure that the service remains competitive. Existing contracts should be reviewed to determine if tendering is required. Tender notices are published through BC Bid at www.bcbid.gov.bc.ca

PURCHASING GUIDELINES

Specialized Purchases

All purchases (regardless of value) are subject to limitations as outlined in the Specialized Purchases Section (Appendix A). Approval is also required by the site supervisor or manager.

Dollar Value Limits on Purchases of Goods and Services

Estimated Lifetime Value (*) of the Purchase	Minimum Action to be Taken	Purchasing Method
Up to \$25,000	At discretion of the site supervisor or designate (Schools are encouraged to get multiple quotations on items with a value over \$5,000 as this can result in significant savings to the school.)	PCard (up to \$5,000) Purchase Order, Contract or Service Agreement, Vendor Account
Between \$25,000 and \$75,000	Three (3) written quotations from vendors.	Purchase Order, Contract or Service Agreement
Over \$75,000	Tender Process through BC Bid	Contract or Service Agreement

*** Lifetime Value**

Purchases are based on the lifetime value of the purchase. This is the total cost of performing the intended function over the lifetime of the task. For example, a \$5,000 annual contract over 5 years = \$25,000 total lifetime value.

OF SCHOOL DISTRICT NO. 33
(CHILLIWACK)
Administrative Procedure

Dollar Value Limits on Construction

Less than \$100,000	At discretion of the Director of Facilities & Transportation.
\$100,000 to \$200,000	Minimum of three (3) written quotes from vendors.
Over \$200,000	Tender Process is followed using BC Bid that provides open access to all interested vendors.

Exceptions

Exceptions to the **three (3) written quotations** are only permitted when time constraints will not allow time for the competitive bid process in instances such as;

- When supplies, services and equipment are urgently required for the delivery of education;
- To avoid significant financial loss through damage to facilities and equipment, or;
- Where safety or operational needs require urgent attention.

With respect to these exceptions, the Assistant Secretary Treasurer, Director of Facilities & Transportation, with the approval of the Secretary Treasurer, may obtain direct quotations from suppliers and award the contract.

New West Partnership Trade Agreement (NWPTA)

Under this agreement construction is defined as: A construction, reconstruction, demolition, repair or renovation of a building, structure or other civil engineering or architectural work and includes site preparation, excavation, drilling, seismic investigation, the supply of products and materials, the supply of equipment and machinery if they are included in and incidental to the construction, and the installation and repair of fixtures of a building, structure or other civil engineering or architectural work, but does not include professional consulting services related to the construction contract unless they are included in the procurement.

The foregoing are stated as minimum actions to be taken and do not prohibit more extensive price acquisition activity.

Supplier Relations

In all procurement activities, School District Staff shall meet the legal and ethical requirements for competitive bidding by:

- Keeping competition open and fair in determining whether the supplier's product meets specifications and the educational needs of the District.
- Making suppliers aware of the competitive requirements of the District's purchasing policy, and avoiding the appearance of making a commitment to purchase where competitive pricing is to be obtained.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK)

Administrative Procedure

- In all cases refusing any personal gift or advantage of any kind.
- Refraining from soliciting funds or materials from vendors where there is any possibility of any connection (perceived or real) to a purchase.
- Respecting the confidences of all suppliers whenever possible with the understanding that the School District is subject to the Freedom of Information and Protection of Privacy legislation.
- Representing the School District in a courteous and professional manner.
- Procuring goods and services with due regard for our environment.
- Providing reasonable opportunities for qualified suppliers and contractors to seek the School District's business.

Purchases on Behalf of Staff

Employees may not use the School District branding, purchase order or purchasing card to obtain personal goods or services, or to acquire discounts or sales exemptions for personal purchases. In addition, items purchased for the School District are not to be sold to staff except as allowed by the due process specified under the Sale of Obsolete Assets section.

Purchases from Staff

Schools and Departments shall not purchase supplies or services from staff. While in most circumstances supplies or services are offered with the best of intentions, issues of conflict of interest (**or perceptions of conflict of interest**) and issues of supplier access make such purchases inadvisable. The only acceptable exception might be a purchase from a legitimate business (i.e. The School District is only one of many customers, and proper Purchasing procedures have been followed).

Sale or Disposal of Obsolete or Surplus Assets

- Equity in school and other equipment belongs to the School District as a whole. Surplus equipment shall be turned in to the Maintenance, or IT departments for reassignment or disposal. However, a School or Department may transfer the old equipment, at a negotiated amount, to another school.
- Surplus items that are no longer useful within the School District but are in saleable condition shall be listed and put out to bid or public auction. The Director of Facilities shall manage the sale of such items.
- All items that are beyond a reasonable economic repair or which have no value at sale shall be disposed of as scrap. The Manager of Facilities shall arrange disposal after exploring all recycling options and using the most environmentally sensitive means available.

Occasionally, offers may be received on individual items awaiting disposal. Where these items have a realizable sale value of under \$200, the offer may be considered and

RIDE DURATION

As a general rule, students will not be carried for a period in excess of one hour per trip to and from school.

CARRYING LUGGAGE IN SCHOOL BUSES (Division 35.09 MVAR):

1. All luggage and small musical instruments must be carried on the student's lap when seated in a school bus in such a manner that the luggage/instrument does not encroach on other passengers and does not reach any higher than the height of the seat back.
2. Neither person nor cargo can intrude into the aisle way or emergency exits.
3. Luggage and instruments larger than described above may be carried in the luggage compartment on fieldtrips or to and from established instrument stop locations.

NOTE: For field trips, schools should have parents/guardians/caregivers transport luggage, or if necessary the school will call Maintenance for assistance when luggage exceeds the capacity of the storage compartments.

SEATING CAPACITY (Division 11.13 MVAR):

1. A passenger on a school bus must be seated comfortably and securely, meaning hips must not extend beyond the edge of the seat cushion.
2. The 84 passenger bus has 28 seats and is capable of carrying 84 elementary students (three to a seat) or 56 other students (two to a seat), providing hips do not extend beyond the edge of the seat cushion.
3. The bus will not proceed unless the driver is reasonably certain that every passenger on the bus is comfortably and securely seated.

RAILWAY CROSSINGS

School buses shall stop for all uncontrolled railway crossings.

BUS STOPS

For enhanced safety, designated bus stops are to be located on a long straight stretch of road where the bus is highly visible to on-coming and following traffic.

In order to minimize the risk to students, bus stops will be kept to a minimum and located as follows:

1. No closer than 200 meters on country roads to minimize disruption of traffic.
2. Away from an intersection and blind spots on a curve or hill.
3. In accordance with Division 11 of the Motor Vehicle Act Regulation where the bus must be visible in both directions for a minimum of 60 meters.
4. At transit stops in the built-up areas if required.

Busses will stop in the safest place regardless of possible inconvenience to individual parents or students.

Students are to be at a designated bus stop at least 5 minutes prior to the scheduled arrival of the bus. If the bus does not arrive within 15 minutes of its scheduled stop students should return home.

Elementary students wishing to leave the bus at a stop other than their regular stop must have a note from a parent or guardian.

VIDEO SURVEILLANCE

Designated school buses have video surveillance cameras installed to monitor and record student behavior. Video recordings may be used as evidence of infractions under the Motor Vehicle Act.

KINDERGARTEN STUDENTS

Transportation is generally not provided to, or from, any address other than the primary residence. No child will be transported to a child-care provider or daycare service one day and home the next day. The regulations regarding transportation zones apply to Kindergarten students.

1. **Morning (Pick-up)** – Students must be brought to the bus by an adult or older sibling.
2. **Afternoon (Drop-off)** – students will take the bus home and be dropped off at a designated bus stop. Those students who do not have older siblings to walk home with must be met at the school bus door by a parent or designated guardian.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

Should no one appear at the bus stop within a reasonable time (2-3 minutes) the driver will keep the student on board and continue with the bus route. Parents are to call the Transportation Department to arrange for pick-up, should no call be received, the student will be returned to the school.

PASSENGER LISTS

Accurate and up-to-date passenger lists (In accordance with Division 11 of the Motor Vehicle Act Regulation) are to be maintained for all scheduled and extra-curricular transportation. Passenger lists for scheduled transportation will be the responsibility of the Transportation Department and extra-curricular transportation will be a school responsibility. Passenger lists must include first and last name of **all passengers**, school, phone numbers and date of birth.

PRE-SCHOOL CHILDREN RIDING IN A SCHOOL BUS

Model 2007 buses and newer have the first two rows of seats fitted with ISO car seat latches. Although child safety seats are not required in buses over 4,536 kg GVW (mini buses) parents are advised to use them.

Parents are responsible for providing the child safety seat and the driver will assist in its installation. Each seat can accommodate one car seat and a parent for a total of 4 car seats per bus.

Schools on field trips are to note the number of pre-school aged children requiring car seat positions on the transportation requisition or call Transportation. Transportation will ensure that buses with car seat latches are provided.

PROCESS FOR DEALING WITH CONCERNS

Normally the **Manager of Transportation** will deal with concerns. Should a concern be unresolved, it may be referred to the **Director of Facilities and Transportation** or the **Secretary Treasurer**.

SCHOOL BUS DISCIPLINE

The Board of Education requires that Bus drivers maintain order on the bus at all times. Bus drivers have a duty to warn students that their behavior may lead to a suspension of riding privileges.

Procedure

1. If the student's behavior does not improve after a verbal warning the driver may issue a written warning. A written warning may result in the student being assigned to a specific seat for a period of time as determined by the driver.
2. If the student's behavior continues to be inappropriate, the driver must inform the Transportation Manager and may recommend suspension of the student's riding privileges. The driver will issue the student a written suspension for parent's signature.

THE BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 33 (CHILLIWACK) Administrative Procedure

Loss of riding privileges are both to and from school, extra curricular trips are not included.

- **Third** suspension – 5 days (Principal, Transportation Manager and Driver to meet with parents); and

ADMINISTRATIVE PROCEDURE 625 SCHOOL FINANCIAL TRANSPARENCY

The Board of Education recognizes that schools have been provided with a district allocation of funds to meet the goals and priorities of the school. Furthermore, schools generate trust funds from parents and community members to supplement the activities at their school.

The Board is ultimately responsible for the effective use of all funds in the district but has delegated the management of school based funds to each school. Schools need to demonstrate, in a transparent manner, how they intend to use these funds.

Purpose:

- Ensure clear communication of information to school partners (e.g., PAC, staff).
- Discuss upcoming priorities for school: How do these align with achievement goals and school growth plans?
- Align timing of expenditures with timing of revenues: Is the school spending the funds collected from parents on current year students or a long term plan?

Process:

- Annually in the fall, meet with staff and PAC to discuss financial priorities for the upcoming year.
- Annually in the spring, meet with staff and PAC to provide an update on the priorities identified in the fall.

ADMINISTRATIVE PROCEDURE 635 CONSTRUCTION CONTRACTS, BIDDING AND AWARDS

Upon the approval of working drawings and specifications by the Board and Ministry, the Board shall solicit bids to be submitted on or before a specified time electronically or at the office of the Maintenance Department. The advertisement shall state the procedure for submitting bids and that the Board reserves the right to reject any or all bids and to re-advertise the project if necessary.

The Board shall require the architect to take responsibility for preparing the advertisements, bid forms, bid bond forms, performance and payment bonds and forms of agreement between the Board of Education and the successful bidder. The architect shall assist the Board and school personnel in analyzing the bids. The architect's advice on awarding the contract is of particular value with respect to legal aspects of contract provisions which regulate alterations, extras, non-performance, damages, and security bonds.

It is recognized that the above process represents the standard funding process for construction contracts. The Board retains the right to follow an alternate process, with agreement from the Ministry of Education, such as a design-build contract process. In this event the Board shall ensure the selection process is thorough, fair and uncompromised. An architect and/or consultant shall be retained to provide advice on awarding the contract as noted in paragraph 2 above.

ADMINISTRATIVE REGULATION MANUAL (UNDER REVISION)

507.2

ADMINISTRATIVE REGULATION

**Student Records: Print Information for Non-Custodial
and Co-Custodial Parents**

Wherever possible and legal, the Board of Education recognizes the value of providing information to non-custodial parents regarding school progress and activities pertaining to their child. The School District also recognizes that many divorced parents continue to share caregiving and custody and that each parent, under legal and practical circumstances, ought to have equal access to information regarding their child's school progress and activities.

Therefore, upon written request to their child's school principal, the school shall subsequently and routinely mail to that parent copies of all school information which is normally sent home with the child. This shall include copies of report cards, class and school newsletters. These mailings should continue for the remainder of the school year in which the request is made. Non-custodial parents and parents with shared custody not normally receiving materials from the school may annually request this service.

In some cases, parents are not, by court order, entitled to access to school information regarding their child. Challenges to a parent's access to information will be referred immediately to the Superintendent of Schools. All information will be withheld pending resolution of the Superintendent's investigation. Principals will advise anyone challenging a parent's right to information that it is only by court action that this right can be frustrated. Those launching challenges are advised to provide documentation regarding court orders prohibiting access to information.
